Please note that the *Faculty Handbook* is an organic document and changes from time to time.

The official version of the handbook resides on the AUS website at the following URL: <https://www.aus.edu/faculty-handbook/>

All academic and non-academic policies can be found here: [2024-2025 Policies and Procedures Manual](#)

The Faculty Handbook

Purpose of the Faculty Handbook

The *Faculty Handbook* contains the main policies that govern the academic activities and working environment of faculty at AUS. Policies included in the *Faculty Handbook* shall be approved by the Board of Trustees. The *Faculty Handbook* also includes procedures that are developed by AUS for implementation of academic policies. Procedures included in the *Faculty Handbook* shall be approved by the Chancellor, who will seek and consider recommendations by the Vice Chancellor for Academic Affairs and Provost (VCAA), the faculty (through the Senate and Faculty Assembly) and the Council of Deans. The *Faculty Handbook* is meant to serve as the primary document for policies and procedures pertaining to the faculty members' work at AUS and to academic matters that impact the faculty members' work at AUS.

AUS colleges and school may develop their own manuals, with specific internal policies. However, such college- and school-specific policies and procedures shall be consistent with those contained in the *AUS Faculty Handbook*.

Interpretation

To the extent that policies and procedures presented in the *Faculty Handbook* are not superseded by UAE Law, Shariah Law, Board of Trustees resolutions or legal contracts executed by the Chancellor, they shall be binding to both faculty members and administrators. In principle, interpretation of the *Faculty Handbook* in specific instances and resolution of conflicts over them is made jointly by the Vice Chancellor for Academic Affairs and Provost and the President of the Senate Executive Committee, who shall submit written recommendations regarding the interpretation or resolution of conflicts to the Chancellor. The Chancellor has final authority to interpret and to resolve conflicting interpretations of the *Faculty Handbook*.

Amendments

Amendments can be made to existing policies and procedures, and consequently to the *Faculty Handbook* as explained below. New policies and procedures take effect once announced by the Chancellor's office or the Vice Chancellor for Academic Affairs and Provost's office. New policies and procedures will appear in the next version of the *Faculty Handbook*.

Amendments to the *Faculty Handbook* affect all University faculty members. Therefore, all amendments must be reviewed by the faculty as set forth below:

Initiation

Proposals for amendments to the *Faculty Handbook* may be submitted by the Chancellor, the Faculty Senate, or by written petition of 10% of the total faculty, through the Faculty Senate and through its committee structure. The proposal will include the amendment and the rationale for the proposal. Proposals for amendments must be submitted in the proper style and format for insertion into the *Faculty Handbook*. The Senate's recommendation on any proposal will be distributed in writing to all members of the Faculty Assembly, together with the rationale.

Approval

The final approval of any amendment to policies in the *Faculty Handbook* rests with the Board of Trustees and the final approval of any amendment to procedures in the *Faculty Handbook* rests with the Chancellor. The Chancellor shall have the sole authority to submit proposals for policy amendments to the Board of Trustees. In all cases of proposed amendments to policies or to procedures, the Chancellor shall seek recommendations from the Faculty Senate and from the Faculty

Assembly (see the Faculty Organization Plan). The approval of recommendations by the Faculty Senate or by the Faculty Assembly requires a two-thirds majority vote. The two-thirds requirement for the Faculty Assembly will be based on the number of Faculty Assembly members present and voting. If recommendations for policy amendments made by the Faculty Senate or by the Faculty Assembly are accepted by the Chancellor, the Chancellor shall submit the policy amendments to the Board of Trustees for final approval.

Restrictions

Faculty review for recommendations of amendments to the *Faculty Handbook* will not be conducted during periods when a significant portion of faculty members are absent from campus, such as during holidays and summer sessions.

Publication and Distribution of Amendments

The Office of the Vice Chancellor for Academic Affairs and Provost has the responsibility for publishing and distributing to faculty amendments to the *Faculty Handbook* approved by the Board of Trustees once a year at the beginning of the Fall semester.

The American University of Sharjah

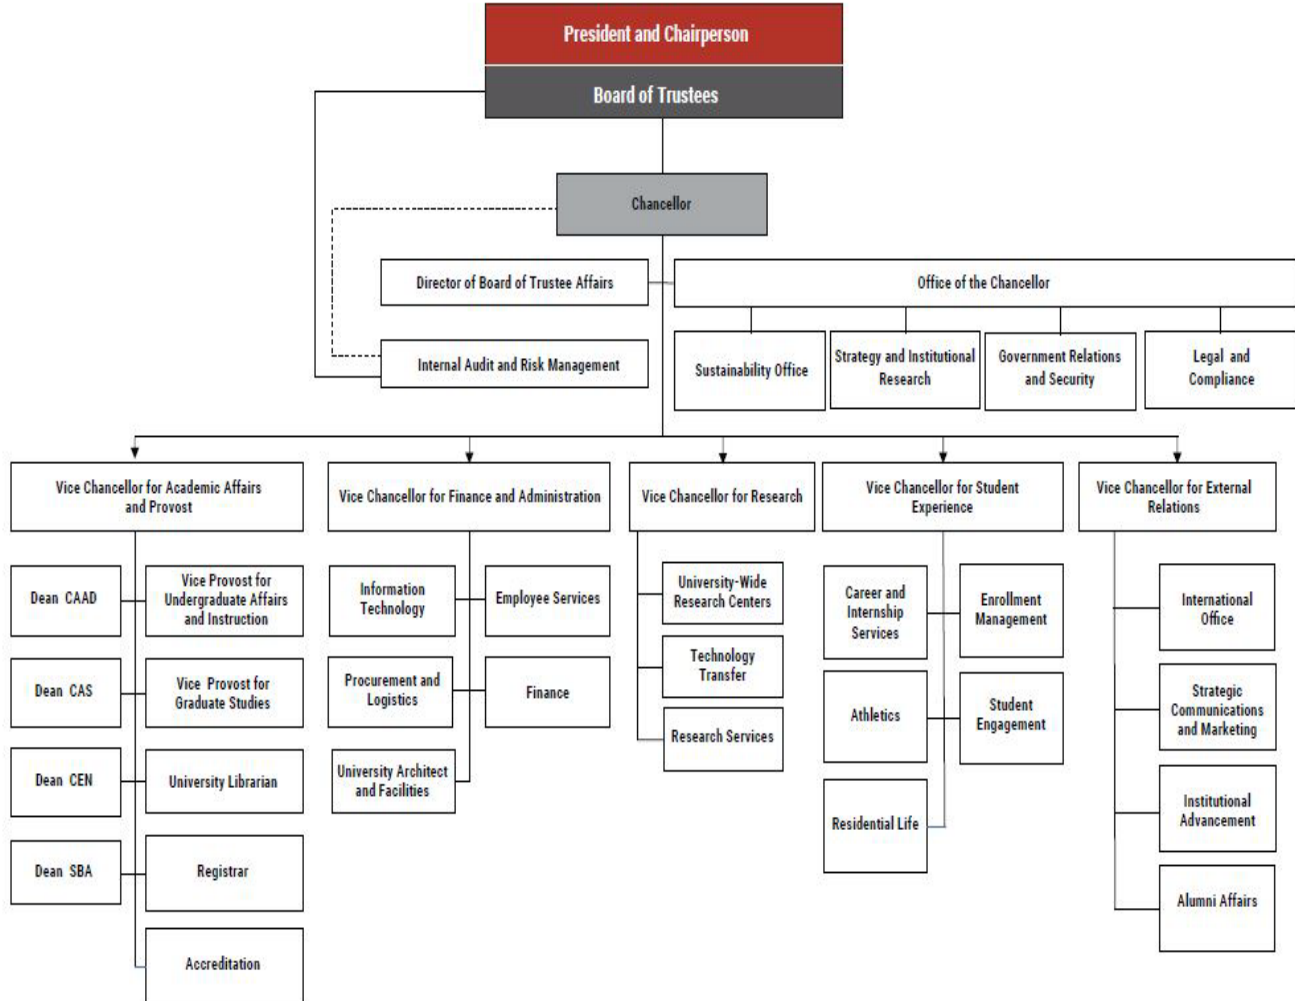

Preamble

The American University of Sharjah (AUS) was founded in 1997 by His Highness Sheikh Dr. Sultan bin Mohammed Al Qasimi, Member of the Supreme Council of the United Arab Emirates and Ruler of Sharjah. His Highness Sheikh Dr. Sultan articulated his vision of a distinctive institution against the backdrop of Arab-Islamic history and in the context of the aspirations and needs of contemporary society in the UAE and the Gulf region.

AUS was mandated to:

- i. reinforce the efforts of the leaders of the UAE “to ensure that science and education regain their rightful place in the building and advancement of our society and shaping the lives of our children”
- ii. join other institutions of higher education in seeking “to reshape fundamentally the minds of our youth to enable them to address the challenges of life using the scientific method”
- iii. become a “center for educational development and the solution of social problems”
- iv. become “organically linked” to the economic, cultural, scientific and industrial sectors of society in “productive cooperation”
- v. exercise the “independence and objectivity in teaching and research” necessary for the achievement of these goals

Organization Chart

Chapter A: Faculty Roles, Ranks, Appointments and Contracts Policy

A.1 Purpose

This policy covers the Faculty's Roles, Ranks, Titles and Appointments.

To carry out its instructional responsibilities to students and to conduct scholarly activities and perform services to society and the University community, the American University of Sharjah employs faculty members in the following roles:

- i. **Rolling-Track Faculty:** Professor, Associate Professor, Assistant Professor, Senior Lecturer, Lecturer, Senior Instructor and Instructor
- ii. **Non-Rolling Track Faculty:** Visiting faculty, Research Fellow, Appointee in Residence, Professor of Practice, Adjunct faculty and Special Contract Faculty
- iii. **Faculty Administrators:** Chancellor, Vice Chancellor for Academic Affairs and Provost, Vice Chancellor for Research, Vice Provost for Graduate Studies, Vice Provost for Undergraduate Affairs and Instruction, Deans, Associate Deans, Department Heads and Program Coordinators.
- iv. The University also holds the Honor of bestowing current or past faculty members with **Honorary Titles**.

Those appointed to the faculty are expected to observe the professional standards and procedures set forth in the *Faculty Handbook*. Included within these standards is the expectation that all those appointed to the faculty will provide the University with full and accurate information about their credentials, including official transcripts. It is expected that faculty satisfactorily perform their teaching and other duties, including scholarly activities, and service.

All evaluation processes including contract renewal and extensions are detailed in Chapter 6. All contracts are subject to Sharjah and to UAE Laws, which take precedence over all policies and procedures included in the *Faculty Handbook*.

A.2 Rolling-Track Faculty Ranks

An essential requirement for appointment as a rolling-track faculty is a commitment to both the advancement of knowledge and the dissemination of scholarly work. Permissible ranks among the rolling-track faculty are Professor, Associate Professor, Assistant Professor, Senior Lecturer, Lecturer, Senior Instructor and Instructor.

The initial appointment at rank should align with the following criteria for each rank:

A.2.a Professor

The rank of Professor is normally attained by promotion from Associate Professor or the equivalent after a positive evaluation of performance. An appointee to this rank normally will hold the recognized terminal degree in the discipline. Requisite professional experience equivalent to a terminal degree may be considered. The candidate for the rank of Professor normally will have had at least five years of full-time academic experience at the rank of Associate Professor or equivalent. The candidate also will have achieved a record of significant and substantial contributions to scholarly activities in his/her field, and will have demonstrated superior teaching ability and strong record of service.

A.2.b Associate Professor

The rank of Associate Professor is normally attained by promotion from Assistant Professor or the equivalent after a positive evaluation of performance. An appointee to this rank normally will hold the

recognized terminal degree in the discipline. Requisite professional experience equivalent to a terminal degree may be considered. The candidate for the rank of Associate Professor normally will have had at least five years of full-time academic experience at the rank of Assistant Professor or equivalent. The candidate will have a strong record of scholarly achievements and will show evidence of commitment to professional growth. The candidate is expected to have demonstrated superior teaching ability and a strong record of service.

A.2.c Assistant Professor

An appointee to the rank of Assistant Professor normally will hold the recognized terminal degree in the discipline. Requisite professional experience equivalent to a terminal degree may be considered. The candidate for the rank of Assistant Professor will have demonstrated potential as an effective teacher as well as dedication to service. Furthermore, the candidate will show evidence of a strong commitment to and potential for successful scholarly activities in his/her field of inquiry and in particular show promise of future professional growth.

A.2.d Senior Lecturer

The rank of Senior Lecturer is normally attained by promotion from Lecturer. An appointee to this rank normally will hold the recognized terminal degree in the discipline. Requisite professional experience equivalent to a terminal degree may be considered. The candidate for the rank of Senior Lecturer normally will have had at least five years of full-time teaching experience in a college or university at the rank of Lecturer or have equivalent experience. The candidate also will have demonstrated superior record of effective teaching, active professional development, and dedication to service.

A.2.e Lecturer

An appointee to the rank of Lecturer normally will hold the recognized terminal degree in the discipline. Requisite professional experience equivalent to a terminal degree may be considered. A candidate for the rank of Lecturer would have a superior teaching record and dedication to service, and show evidence of a strong commitment to professional development.

A.2.f Senior Instructor

The rank of Senior Instructor is normally attained by promotion from Instructor or equivalent after a positive evaluation of performance. The candidate for the rank of Senior Instructor normally will hold a master's degree in a field appropriate to the instructional responsibilities and have completed at least five years of full-time teaching experience in a college or university at the rank of Instructor, or have equivalent experience. The candidate also will have demonstrated superior record of effective teaching, professional development, and dedication to service.

A.2.g Instructor

An appointee to the rank of Instructor normally will hold a master's degree in a field appropriate to the instructional responsibilities. Requisite equivalent professional experience may be considered. The candidate also will have demonstrated potential for effective teaching, professional development, and dedication to service.

A.3 Search and Appointment of Rolling-Track Faculty

The University is fully committed to equal opportunity at all levels without discrimination on the basis of race, gender, religion, age, family status, or national origin. In addition, discrimination is prohibited on any other basis prohibited by law that applies to the faculty member's employment at the University. As a university formed on American models, AUS will give priority to candidates who have substantial experience in American models of higher education.

A.3.a Initiation of Search

Based on demonstrated need of a unit's academic program, the Dean, after receiving approval from the Vice Chancellor for Academic Affairs and Provost, initiates the search for a new faculty member.

A.3.b Search Committee

A thorough search and careful selection precedes any recommendation of appointment from any academic unit (describes department/program). The length and complexity of this process depends upon the nature of the appointment.

A.3.c Appointment

All appointments to faculty ranks are made by the Chancellor on the recommendation of a college, school, department or other appropriate academic or administrative unit with the concurrence of the appropriate Dean and the Vice Chancellor for Academic Affairs and Provost. The University does not normally promote faculty at the time of initial appointment. Notification of appointment is made by letter from the Chancellor.

This letter of appointment specifies:

- i. academic unit
- ii. rank
- iii. salary and related financial conditions
- iv. benefits
- v. length and type of contract

Previous correspondence between the Department Head or the Dean and the prospective faculty member concerning these matters is unofficial and not binding on the University.

A.3.d Acceptance of Appointment

The signed contract constitutes the terms of employment. All employment is subject to satisfying the conditions for a UAE residency and work visa.

A.3.e Joint Appointments

A faculty member holds a joint academic appointment if he/she holds instructional, research, and/or service responsibilities in two or more units (describes college/school). Unless otherwise specified, the current AUS policies, principles, practices, and guidelines apply to all faculty with joint appointments.

The stated principles primarily address joint academic appointments that cross two or more different schools, colleges, institutes, and centers. However, the principles are also applicable to other situations such as when a joint appointment crosses two (or more) departments within a single school or college.

For a faculty member who holds a joint appointment in two or more units, one unit will be designated as the primary unit and the other(s) will be designated as the secondary unit(s). The primary unit with which the faculty member will be affiliated, will handle and process all matters of promotion, salary raises, and rolling contracts, as needed. The primary unit is responsible for the faculty member's total compensation.

The primary unit is responsible for managing administrative issues and processes (e.g., leaves, benefits) for individuals with joint appointments, unless otherwise specified in the agreement at the time of appointment. Rolling is not held in the secondary unit. The secondary unit cannot be converted to primary. If there is non-reappointment in the primary unit, the secondary appointment terminates at the same time.

A.4 Types of Contracts for Rolling-Track Faculty

The academic performance of each faculty member is evaluated annually.

A.4.a Initial Contract

Initial rolling-track faculty appointments are for three years.

A.4.b Second Contract

Before the outset of the last academic year of the existing contract, a careful review is conducted by the Head of Department and the Dean. A recommendation regarding a second three-year contract, based on the outcome of that review, will be communicated to the Vice Chancellor for Academic Affairs and Provost and to the Chancellor, who will make the final decision. A faculty member who is not recommended for a second three-year contract will be given a terminal year effective the following Fall.

A.4.c Three-Year Rolling Contract

For faculty members who are approved for a second three-year contract, an in-depth review will be conducted during the sixth year of employment. The purpose of the sixth-year in-depth review is to inform the decision of the Chancellor to recommend to the Board of Trustees the conferral of a three-year rolling contract or to offer the faculty member a one-year terminal contract, effective from the following Fall.

Unless otherwise specified in the letter of appointment, a faculty member is entitled to apply for a three-year rolling contract in the sixth year of full-time employment at AUS. An applicant with extensive professional experience in his/her field may be granted up to two years of credit toward eligibility for a three-year rolling contract, which must be specified in the letter of appointment. If a faculty member has an extraordinary academic record, he/she may be considered for the early award of a three-year rolling contract at any time after the conclusion of the first three-year contract.

The three-year rolling contract is a mutually acknowledged expectation of continuing employment. A three-year rolling contract is renewable each year based on an annual assessment of the faculty member's performance. If the Dean in consultation with the Department Head (HOD) recommends an in-depth evaluation and the outcome is not positive, the faculty member will complete, at a minimum, the remaining one year of his/her contract prior to the termination.

The three-year rolling contract expires on the date of voluntary retirement or earlier if the faculty member's employment at the University has been terminated for other reasons. If a faculty member on a rolling contract resigns from AUS and later seeks a faculty reappointment at AUS, then the application must be considered per the process in Section A.3.

A.4.d Rolling Contract for Joint Appointments

For individuals with joint appointments, their rolling contract decision should be conducted by their primary unit in close collaboration with and participation of the secondary units.

The primary unit is responsible for actively coordinating the process and seeking input from the secondary unit(s) and submitting it with the final reports. The agreement at the time of appointment must specify the method that will be used to collaborate and to solicit input from the secondary unit(s). For all evaluations, the weighting of performance criteria should be consistent with the specific expectations articulated in the agreement.

A.5 Non-Rolling Track Faculty Ranks

Permissible ranks among the non-rolling track faculty are: Visiting faculty, Research Fellow, Appointee in Residence, Professor of Practice, Adjunct faculty and Special Contract Faculty.

A.5.a Visiting Faculty

A person who is on leave as a faculty from an accredited college/university or a comparable educational, research, corporate and/or policy institution may be appointed on an annual basis as a Visiting Professor, Visiting Associate Professor, Visiting Assistant Professor, Visiting Senior Lecturer, Visiting Lecturer, Visiting Senior Instructor, or Visiting Instructor. Visiting faculty positions normally are

one or two semesters in length. Those faculty members new to the profession may also be appointed to one-year terms as visiting faculty.

Recommendations for reappointment of visiting faculty shall be made annually by the appropriate unit through the Dean to the Vice Chancellor for Academic Affairs and Provost. A visiting appointment normally is not extended beyond a third year.

Faculty on visiting appointments may apply for rolling-track positions as per the policy and procedure described in Chapter A- Section A.3 (Policy) and Section A.1 (Procedure) related to the search for a new faculty.

A.5.b Research Fellow

Appointment as Research Fellow requires the recognized terminal degree in the discipline. Appointees will have a strong research record of accomplishments in their area of expertise and an ability to contribute to the university's research agenda.

Research Fellow is appointed for one semester or more, not to exceed three years. The appointment may be renewed.

A.5.c Appointee in Residence

An Appointee in Residence will be titled or identified with an appropriate designation, such as Executive, Scholar, Artist, Diplomat, or other descriptive term. An appointee to this rank may or may not hold the terminal degree in the discipline; however, they must possess a record of significant accomplishment in their area of expertise and demonstrate the ability to contribute to advancing the university's mission. Teaching assignments for Appointees in Residence are determined based on qualifications and are made in accordance with discipline-specific terminal degree requirements.

Appointee in Residence contracts are renewable and may either be short term for a portion of a semester, or range from one semester to a maximum of three years. The Appointee in Residence is not eligible for a rolling contract.

A.5.d Professor of Practice

An appointee to Professor of Practice holds the recognized terminal degree in the discipline. Requisite professional experience equivalent to a terminal degree may be considered. The appointee will have a strong teaching ability to engage in instruction of professional students with emphasis on the development of practical skills.

Contracts for Professor of Practice are renewable and may range from one semester to three years. A Professor of Practice is not eligible for a rolling contract.

A.5.e Adjunct Faculty

The University makes important use of the service of adjunct faculty in many academic units. Adjunct faculty are identified, employed, reviewed, counseled, encouraged, retained, or terminated as part of a coherent academic plan.

Adjunct faculty members are employed on a part-time basis. A part-time faculty appointment allows an individual to contribute to the instructional program of a college/school on a part-time basis. Persons may serve as adjunct faculty without limit of time through successive appointments on an as-needed basis. These appointments offer none of the employee benefits of a full-time (rolling-track, research, or visiting) faculty appointment. Whereas the conditions of employment and prerequisites of employment are not the same as for full-time faculty, all other rules, policies and procedures that relate to teaching responsibilities and professional conduct at AUS apply.

The duties, expectations, and rights of adjunct faculty can be obtained from the appropriate Dean's office. It is the Department Head's responsibility to inform adjunct faculty about the mission and

objectives of the department in its relation to the institution, as well as about the conditions (curriculum, general rules, and policies) under which students are taking the course or under which the scholarly activities fulfill the institution's objectives. Toward this end, it is important, wherever possible, for adjunct faculty to receive appropriate unit, college/school and University communications, and to be invited to unit meetings, as well as appropriate public events, seminars, and symposia.

A.5.f Special Contract Faculty

A special contract faculty appointment allows an individual possessing special skills or knowledge needed to complete a particular curriculum to contribute to the instructional program of a college/school on a part-time basis. Special contract appointments are made at the rank of Professor, Associate Professor, Assistant Professor, Senior Lecturer, Lecturer, Senior Instructor, and Instructor. The terms, conditions and limitations of such appointments are at the discretion of the appropriate Dean(s) and Vice Chancellor for Academic Affairs and Provost. Such an appointment may be renewed annually.

A.6 Search and Appointment for Non-Rolling Track Faculty

A.6.a Visiting and Other Hiring

Appointments to these kinds of positions are made through recommendations to the Dean from the Department Head. Visiting faculty are normally hired for up to one year.

A.6.b Emergency Hiring

When a vacancy occurs outside the normal recruiting/hiring time-frame, the Dean may petition the Vice Chancellor for Academic Affairs and Provost to conduct an emergency hire.

A.7 Faculty Administrator Ranks

A faculty administrator is a rolling or rolling-track faculty member who is appointed or elected to an administrative position, in which capacity he/she holds responsibility for supervising and/or evaluating other members of the faculty.

These administrative positions include but are not limited to the Chancellor, Vice Chancellor for Academic Affairs and Provost, Vice Chancellor for Research, Vice Provosts, Deans, Research Institute Directors, Associate Deans and Department Heads. Faculty administrators are members of their departments and of the Faculty Assembly and retain their faculty status, including consideration for promotion in rank or an appointment on the same basis as other rolling-track faculty members.

A.8 Faculty Administrator Appointments

Associate Deans, Heads of Department and Graduate Program Directors are appointed by the Dean after consultation with the Vice Chancellor for Academic Affairs and Provost as prescribed in the relevant AUS policy document.

A.9 Honorary Titles

The University reserves the right to award Honorary Titles to Distinguished members of current and former rolling-contract faculty upon certain criteria. These titles are: Distinguished Professor, Trustees Professor, and Faculty Emeritus/a.

A.9.a Distinguished Professor

The honorary title of Distinguished Professor is bestowed by the Board of Trustees to a faculty member who has exceptional merit as evidenced by a high level of national and/or international recognition of his/her scholarship. Examples of such recognition are the award of a well-known prize for their

scholarship, the receipt of exceptionally large scholarship grants, having received a similar recognition at another prestigious university, or other evidence of outstanding national and/or international reputation. The faculty member must meet eligibility criteria that include a record of exceptional scholarly contributions recognized worldwide.

The title is bestowed by the Board of Trustees upon the recommendation of the Chancellor in accordance with the procedures described in Chapter A: Faculty Roles, Ranks, Titles and Contract Procedures.

Time of Recognition

Nominations for award of the Distinguished Professor title may be considered at any time. The title typically is conferred during commencement.

Privileges

The title of Distinguished Professor will be held as long as the honored faculty member remains at AUS. The privileges stated below will be bestowed for three years and are subject to renewal.

The Distinguished Professor will have his/her salary determined in the usual way. He/she can choose between:

- i. a normal teaching load plus an annual stipend, or
- ii. a reduced teaching load (e.g., 2 courses per semester)

In addition, the Distinguished Professor will be eligible for an annual grant to support professional activities, including conference grant support. In all other matters, their contractual conditions (rolling contracts, sabbaticals, merit) will be guided by the *Faculty Handbook*.

A.9.b Trustees Professor

The title of Trustees Professor is bestowed by the Board of Trustees upon a full-time faculty member who has attained the rank of Professor and earned a rolling contract at AUS. The faculty member must have demonstrated a sustained record of exceptional merit as evidenced by a high level of national and international recognition for teaching, research, or both. The Trustees Professor is expected to continue to serve the university with distinction and to provide leadership that advances the mission of the university.

A.9.c Faculty Emeritus/Emerita

The titles are bestowed by the Board of Trustees upon the recommendation of the Chancellor as per Chapter A: Faculty Roles, Ranks, Appointments and Contract Policies and Procedures.

Professor/Associate Professor Emeritus/Emerita

The honorary title of Professor / Associate Professor Emeritus/Emerita is granted in recognition to a distinguished faculty member who ceases to be employed by AUS. The faculty member must meet eligibility criteria that include a minimum length of service to AUS and a record of meritorious contribution to the university.

Privileges

No monetary compensation will be provided for this honor. However, the Professor/Associate Professor Emeritus/Emerita will enjoy privileges that include but are not limited to the following:

- i. listing in the University's catalogs
- ii. invitations to attend departmental faculty meetings as a non-voting member
- iii. invitations to major University events including academic convocations and commencement
- iv. provided a University identification card
- v. provided library privileges
- vi. inclusion on mailing lists and all other official faculty listings
- vii. using their former departmental office as a mailing address
- viii. using University e-mail ID and departmental stationery

- ix. accessing to research funds through the normal faculty research grant competition
- x. serving the University through its various committee structures if invited
- xi. accessing all American University of Sharjah recreational facilities to which full-time continuing faculty are entitled
- xii. using University parking, based on availability of space and payment of any fees
- xiii. using office space and administrative assistant services based on available resources Requests for space and administrative assistant privileges must be approved by the Dean of the college/school

Dean Emeritus/Emerita

The honorary title of Dean Emeritus/Emerita is the highest honor that is bestowed by the University upon a retired Dean. It is an award at the discretion of the University, not an entitlement of the individual.

Time of Recognition

Nominations for award of the title Dean Emeritus/Emerita may be considered at any time after the Dean has ceased employment with the University. The title typically is conferred during Commencement.

Privileges of the Dean Emeritus/Emerita

No monetary compensation will be given for this honor. However, all persons holding the title Dean Emeritus/Emerita will enjoy privileges that include but are not limited to the following:

- i. listing in the University's catalogs
- ii. invitations to attend college/school faculty meetings as non-voting members
- iii. invitations to major University events, including academic convocations and commencements
- iv. provided a University identification card
- v. provided library privileges
- vi. inclusions on mailing lists and all other official faculty listings
- vii. using their former college/school office as a mailing address
- viii. using University e-mail ID and college/school stationery
- ix. serving the University through its various committee structures if invited
- x. accessing all American University of Sharjah recreational facilities to which full-time continuing faculty are entitled
- xi. using University parking, based on availability of space and payment of any fees
- xii. using office space and administrative assistant services based on available resources Requests for space and administrative assistant privileges must be approved by the Chancellor

Vice Chancellor for Academic Affairs and Provost Emeritus/Emerita

The honorary title of Vice Chancellor for Academic Affairs and Provost Emeritus/Emerita is the highest honor that is bestowed by the University upon a retired Provost. It is an award at the discretion of the University, not an entitlement of the individual.

Time of Recognition

Nominations for award of the title Provost Emeritus/Emerita may be considered at any time after the Provost has ceased employment with the University. The title typically is conferred during Commencement.

Privileges of the Vice Chancellor for Academic Affairs and Provost Emeritus/Emerita

No monetary compensation will be given for this honor. However, all persons holding the title Vice Chancellor for Academic Affairs and Provost Emeritus/Emerita will enjoy privileges that include but are not limited to the following:

- i. listing in the University's catalogs
- ii. invitations to major University events, including academic convocations and commencements
- iii. provided a University identification card
- iv. provided library privileges
- v. inclusions on mailing lists and all other official University listings
- vi. using their former office as a mailing address
- vii. using University e-mail ID and University stationery
- viii. serving the University through its various committee structures, if invited
- ix. accessing all American University of Sharjah recreational facilities to which full-time continuing faculty and staff are entitled
- x. using University parking, based on availability of space and payment of any fees

Chancellor Emeritus/Emerita

The honorary title of Chancellor Emeritus/Emerita is the highest honor that is bestowed by the University upon a retired Chancellor. It is an award at the discretion of the University, not an entitlement of the individual.

Time of Recognition

Nominations for award of the title Chancellor Emeritus/Emerita may be considered at any time after the Chancellor has ceased employment with the University. The title typically is conferred during Commencement.

Privileges of the Chancellor Emeritus/Emerita

No monetary compensation will be given for this honor. However, all persons holding the title Chancellor Emeritus/Emerita will enjoy privileges that include but are not limited to the following:

- i. listing in the University's catalogs
- ii. invitations to major University events, including academic convocations and commencements
- iii. provided a University identification card
- iv. provided library privileges
- v. inclusions on mailing lists and all other official University listings
- vi. using their former office as a mailing address
- vii. using University e-mail ID and University stationery
- viii. serving the University through its various committee structures if invited
- ix. accessing all American University of Sharjah recreational facilities to which full-time continuing faculty and staff are entitled
- x. using University parking, based on availability of space and payment of any fees

A.10 Other Contract Considerations

A.10.a Notifications

Initial appointment, contract renewal, awarding of a three-year rolling contract and promotion are separate actions. The University shall give prompt written notice to the concerned member of the rolling-track faculty setting forth the following:

- i. the rank of initial appointment
- ii. the rank to which he or she is promoted
- iii. the awarding, renewal, denial or non-renewal of any existing contract
- iv. any final action taken in regard to rank and the three-year rolling contract

Contracts concluded for a specified period will automatically terminate at the end of the period.

Chapter A: Faculty Roles, Ranks, Appointments and Contracts Procedures

A.1 Purpose

This section addresses the procedures for the appointment of faculty members and the award of honorary titles.

A.2 Search and Appointment of Rolling-Track Faculty

Rolling-track faculty members are appointed to positions at the University following the procedure:

- a. Initiation of Search
- b. Search Committee
- c. Appointment
- d. Acceptance of Appointment
- e. In specific instances the University will deploy an additional procedure for Joint Appointments

A.2.a Initiation of Search

The initiation of the Search is described in Chapter A (Policy) - Section A.3.

A.2.b Search Committee

The Head of the academic unit shall consult with the faculty of the academic unit about the needs of the program, providing faculty full opportunity to help define the qualifications and to formulate the description of the position. The Dean, in consultation with the academic unit faculty shall appoint a search committee appropriate to the position to be filled. The Head of the academic unit shall be a member of the search committee. The search committee will submit to the Dean a shortlist of a minimum of three candidates, if possible, including a rationale for the recommendations. The Dean, in consultation with the search committee, will submit a recommendation for appointment to the Vice Chancellor for Academic Affairs and Provost.

The following guidelines describe the main steps to be followed for hiring into rolling-track faculty positions.

- i. The search committee should represent the faculty body of the academic unit and must include:
 - (a) at least three faculty members from the department (identified by the department, with the approval of the Dean) including, when possible and appropriate, one who is familiar with the area of expertise of the advertised position
 - (b) the Department Head as a voting ex-officio member
- ii. The initial search is conducted by the search committee based on the advertised criteria, such as degree requirements, rank and nature of experience, area of specialty, as well as on considerations of diversity, including gender, ethnic, and racial backgrounds.
- iii. The search committee makes available to the department faculty all applications, divided and clearly marked between qualified and unqualified applications, except for an application where the applicant has asked that his/her application be kept confidential.
- iv. The search committee will evaluate all applications that pass this initial stage of search taking into consideration all written faculty comments in the process.
- v. Except where circumstances preclude them, the search committee conducts interviews with the qualified candidates to develop and present an unranked short list of acceptable candidates along with recommended academic ranks to the Dean.

- vi. The Dean may add to the shortlist of candidates after consulting with the committee and the Vice Chancellor for Academic Affairs and Provost.
- vii. The Dean or Department Head will provide the department faculty with the list of short-listed candidates. After the shortlist is announced, no AUS employee other than the Dean or his/her designee may contact a short-listed candidate.
- viii. The Dean is responsible for arranging for interviews with the short-listed candidates.
- ix. The Dean recommends to the Vice Chancellor for Academic Affairs and Provost the candidate(s) to whom an offer is to be made.
- x. Throughout the process, written reports will be provided by one reviewing body to the next, justifying recommendations being made. All such recommendations will be provided by the Dean to the Vice Chancellor for Academic Affairs and Provost.
- xi. The Dean or Department Head will inform the departmental faculty of the acceptances of offers as soon as it is practical to do so.

A.2.c Appointment

All appointments to faculty ranks are made by the Chancellor on the recommendation of a college, school, department or other appropriate academic or administrative unit with the concurrence of the appropriate Dean and the Vice Chancellor for Academic Affairs and Provost.

A.2.d Acceptance of Appointment

The signed contract constitutes the terms of employment. All employment is subject to satisfying the conditions for a UAE residency and work visa.

A.2.e Joint Appointments

A faculty member holds a joint academic appointment if he/she holds instructional, research, and/or service responsibilities in two or more units. A faculty member who ought to have a joint appointment must first obtain an employment contract in the primary unit. A joint appointment should be defined by an agreement between primary and secondary units.

It is the shared responsibility of the Department Heads, Deans, and/or Research units Directors to make appropriate recommendations for appointments with the approval of the faculty associated with the appointment. The agreement should clearly define the basic terms of the joint appointment including the agreement period and responsibilities, rights, and privileges for the faculty in each of the units. Upon the approval by the Provost, this agreement then becomes an addendum of appointee's employment contract.

A.3 Non-Rolling Track Faculty Ranks

Permissible ranks among the non-rolling track faculty are: Visiting faculty, Research fellow, Appointee in Residence, Professor of Practice, Adjunct faculty and Special Contract Faculty.

A.4 Search and Appointment for Non-Rolling Track Faculty

A.4.a Visiting Faculty Hiring

Visiting faculty will be hired through the same processes as described above for rolling-track faculty positions. In cases of emergency, the emergency hiring process may be used.

A.4.b Emergency Hiring

After consulting with the Department Head (who, in turn, should consult with the department faculty when possible), the Dean will recommend to the Vice Chancellor for Academic Affairs and Provost hiring a faculty member for a one-semester or one-year contract. Only in unusual circumstances will an emergency hire be made for more than one year. As soon as possible, the Dean will inform the

Department Head when a person has been hired to fill the vacancy.

A.7 Honorary Titles

The University reserves the right to award Honorary Titles to Distinguished members of current and former rolling-contract faculty based on the policy described in Chapter A (Policy) - Section A.9.

Each Fall, the Vice Chancellor for Academic Affairs and Provost, in consultation with the Senate President, will appoint and chair an Honors Review Committee. The committee will consist of at least one member of the Senate, at least one college/school Dean, and three faculty members at the rank of Professor. Individuals who may be considered for emeritus status will recuse and absent themselves from committee deliberations pertaining to their nomination.

A.7.a Distinguished Professor

The title is bestowed by the Board of Trustees upon the recommendation of the Chancellor in accordance with the procedures below.

Eligibility Criteria

- i. Affiliation and length of service:
The nominee must be an employee of the University at the time of nomination.
- ii. Academic rank:
The faculty member is expected to hold the rank of Professor at the time of recognition.
- iii. Contributions to his/her field and dedication to the institution:
The faculty member must have an exceptional record of scholarly contributions recognized at the highest international levels.

Nomination Process

Nominations for the title normally originate in the nominee's department or program but may be made by the Dean or any member of the faculty holding the rank of Professor. Nominations must be accompanied by supporting documentation, including a current curriculum vita and a nomination letter making the case why the candidate deserves such an honor. If the Chancellor concurs in a positive recommendation following the evaluation process outlined below, the nomination is presented to the Board of Trustees.

- i. Following the nomination, the Dean of the nominee's school/college considers the application with input from the faculty on rolling contract in the nominee's department/program and the Department Head/Program Director. The Dean supplements the application with his or her recommendation to the Vice Chancellor for Academic Affairs and Provost.
- ii. The Honors Review Committee evaluates the nomination and makes a recommendation to the Vice Chancellor for Academic Affairs and Provost.
- iii. The Vice Chancellor for Academic Affairs and Provost considers the application, supplements it with his or her recommendation and forwards it to the Chancellor.
- iv. The Chancellor makes a recommendation and, if positive, forwards it to the Board of Trustees.
- v. Only the Board of Trustees can bestow the designation of Distinguished Professor.

A.7.b Trustees Professor

The recommendation to appoint a faculty member as Trustees Professor is made by the Dean, reviewed by the Vice Chancellor for Academic Affairs and Provost, the University Honors Committee,

and the Chancellor. The Trustees Professor title is permanent and does not preclude consideration for the honorary title of Professor Emeritus/Emerita. There are no financial benefits associated with the title.

A.7.c Faculty Emeritus/Emerita

This category of Honorary Titles has the following sub-categories: Professor/Associate Professor Emeritus/a, Dean Emeritus/a, Chancellor Emeritus/a.

Professor/Associate Professor Emeritus/Emerita

The title is bestowed by the Board of Trustees upon the recommendation of the Chancellor in accordance with the procedures below.

Eligibility Criteria

- i. Academic Rank and Length of Service at AUS:
The faculty member must hold the rank of Professor or Associate Professor must have served at least 10 years at AUS as a faculty member and have earned a rolling contract. Exceptions to the length of service requirement can be considered with an appropriate rationale.
- ii. Contributions to his/her field and dedication to the institution:
The faculty member must have a meritorious record of contributions in one or more of the areas of teaching, scholarly work and service.

Nomination Process

Nominations for the award of Professor/Associate Professor Emeritus/Emerita are submitted to the Dean of the nominee's school or college and may be made by any member of the university faculty holding the rank of Professor or Associate Professor. Nominations for the award may be considered during the last academic year of employment at AUS or the following academic year. If the award is denied in the initial application, the faculty member may be re-nominated only once, during the following academic year. Nominations must be accompanied by a current curriculum vita, a nomination letter, and supporting documentation clearly demonstrating evidence of strong contributions in one or more of the areas of teaching, scholarly work, and service.

- i. Following the nomination, the Dean of the nominee's school/college considers the application with input from the faculty on rolling contract in the nominee's department/program and the Department Head/Program Director. The Dean supplements the application with his or her recommendation to the Vice Chancellor for Academic Affairs and Provost.
- ii. The Honors Review Committee evaluates the nomination and makes a recommendation to the Vice Chancellor for Academic Affairs and Provost.
- iii. The Vice Chancellor for Academic Affairs and Provost considers the application, supplements it with his or her recommendation and forwards it to the Chancellor.
- iv. The Chancellor makes a recommendation and, if positive, forwards it to the Board of Trustees.
- v. Only the Board of Trustees can bestow emeritus and emerita status. The title is typically conferred during commencement.

Dean Emeritus/Emerita

The honor is bestowed by the Board of Trustees upon recommendation of the Chancellor in accordance with the procedures below.

Eligibility Criteria

Upon the cessation of his/her regular employment with the University, a Dean is eligible for the honorary title of Dean Emeritus/Emerita if the following eligibility criteria are met:

- i. Rank at the time of retirement:
The Dean must hold the rank of Professor at the time of retirement.
- ii. Outstanding service to his/her college/school and community:
The Dean has made outstanding contributions to the development of his/her college/school in all areas normally expected of Deans, such as accreditation, growth, reputation, funding, and service to constituents.

Nomination Process

- i. Initial nominations may come from any constituency of the college/school in which the Dean served to the Vice Chancellor for Academic Affairs and Provost, provided that the nomination is supported by the signatures of at least 25% of the full-time rolling-track faculty in that college/school.
- ii. The Vice Chancellor for Academic Affairs and Provost and an Honors Review Committee of faculty members from the college/school plus one Dean appointed by the Chancellor in consultation with the Senate will oversee the evaluation process.
- iii. The Honors Review Committee evaluates the nomination and makes a recommendation to the Vice Chancellor for Academic Affairs and Provost.
- iv. The Vice Chancellor for Academic Affairs and Provost considers the application, supplements it with his or her recommendation and forwards it to the Chancellor.

Vice Chancellor for Academic Affairs and Provost Emeritus/Emerita

The honor is bestowed by the Board of Trustees upon the recommendation of the Chancellor in accordance with the procedures below.

Eligibility Criteria

- i. Length of service at the American University of Sharjah:
The retired Vice Chancellor for Academic Affairs and Provost has at least four years of continuous, distinguished service at AUS.
- ii. Outstanding service to AUS and community:
The retired Vice Chancellor for Academic Affairs and Provost will have made outstanding contributions to the development of AUS in such areas as accreditation, growth, reputation, and funding.
- iii. Dedication to serving his/her constituents:
The retired Vice Chancellor for Academic Affairs and Provost provided excellent service to University constituencies.

Nomination Process

- i. Initial nominations may come from the faculty of the University to a Board of Trustees member, the President of Faculty Senate, or the incumbent Vice Chancellor for Academic Affairs and Provost. As a part of the nomination, the nominating party should demonstrate support by 25% of the faculty.
- ii. The Chancellor and the President of the Faculty Senate oversee the evaluation process, including determining support from faculty and staff if not a part of the original nomination.

Recommendation Process

- i. Nominations and supporting materials are forwarded to the incumbent Vice Chancellor for Academic Affairs and Provost.
- ii. The Honors Review Committee evaluates the nomination and makes a recommendation.
- iii. The incumbent Vice Chancellor for Academic Affairs and Provost forwards the committee's recommendation to the Chancellor, who presents the nomination and a recommendation to the Board of Trustees.

- iv. The title of Vice Chancellor for Academic Affairs and Provost Emeritus is bestowed only by the Board of Trustees and conferred by the President of the University.

Chancellor Emeritus/Emerita

The honor is bestowed by the Board of Trustees upon the recommendation of the Chancellor in accordance with the procedures below.

Eligibility Criteria

- i. Length of service at the American University of Sharjah:
The retired Chancellor has at least four years of continuous, distinguished service at AUS.
- ii. Outstanding service to AUS and community:
The retired Chancellor will have made outstanding contributions to the development of AUS in such areas as accreditation, growth, reputation, and funding.
- iii. Dedication to serving his/her constituents:
The retired Chancellor provided excellent service to University constituencies.

Nomination Process

- i. Initial nominations may come from any constituency of the University to a Board of Trustees member, the President of Faculty Senate, or the incumbent Chancellor. As a part of the nomination, the nominating party should demonstrate substantial support by 25% of faculty and staff.
- ii. The Vice Chancellor for Academic Affairs and Provost and the President of the Faculty Senate oversee the evaluation process, including determining support from faculty and staff if not a part of the original nomination.

Recommendation Process

- i. Nominations and supporting materials are forwarded to the Vice Chancellor for Academic Affairs and Provost.
- ii. The Honors Review Committee evaluates the nomination and makes a recommendation.
- iii. The Vice Chancellor for Academic Affairs and Provost forwards the committee's recommendation to the incumbent Chancellor, who presents the nomination and a recommendation to the Board of Trustees.
- iv. The title of Chancellor Emeritus/Emerita is bestowed only by the Board of Trustees and conferred by the President of the University.

Chapter B: Faculty Rights and Responsibilities Policy

B.1 Purpose

The purpose of this chapter is to describe in detail the policy regarding the Rights and Responsibilities of faculty.

B.2 Rights

B.2.a Non-Discrimination Policy

No officer or employee of the American University of Sharjah shall discriminate against any person because of race, color, religion, national origin, age, non-disqualifying handicapping condition, ethnic group, or gender, in any of its programs, activities, contracts, personnel administration practices or any other actions it undertakes. Furthermore, the University will maintain and advance those practices, processes, and circumstances that afford equal opportunity to all individuals. Without limiting this non-discrimination policy, the American University of Sharjah is committed to complying with all laws that apply to a faculty member's employment at the University.

B.2.b Academic Freedom

Institutions of higher education exist for the common good. The common good depends upon an uninhibited search for truth and its open expression. Hence, it is essential that faculty members are free to pursue scholarly inquiry without undue restriction, and to voice and publish individual conclusions concerning the significance of evidence that they consider relevant.

Within the bounds of professional behavior, each faculty member is entitled to full freedom in the classroom in discussing the subject being taught. Within the bounds of professional behavior, faculty members also have full freedom to express disagreement with other members of the University community. Although a faculty member observes the regulations of the institution, he or she maintains the right to criticize and seek revision. Faculty members also are citizens or residents of a nation, emirate, and community; therefore, when speaking, writing, or acting outside the classroom, they should be free from institutional censorship. On such occasions, faculty members should make it clear that they are not speaking for the institution. Faculty also must be cognizant of the mores and sensibilities of the host culture.

B.3 Responsibilities

Duties of a faculty member shall consist of those responsibilities assigned by the Chancellor and/or an appropriate administrator, such as the Vice Chancellor for Academic Affairs and Provost, Dean, Program Director or Department Head. Teaching assignments, schedules and other instructional responsibilities shall be performed under the direction of the supervising administrator. Normally, duties and responsibilities shall be related to the expertise and competence of the faculty member. Teaching, scholarly activities, and service shall be subject to evaluation by appropriate administrators and shall be considered in performance-based decisions relating to compensation, retention, promotion, termination, and renewal/extension.

B.3.a Teaching

Responsibility as a Teacher

The faculty member accepts the obligation to exercise critical self-discipline and judgment in using, extending, and transmitting knowledge and to practice intellectual honesty. Faculty are entitled to freedom in the classroom in discussing their subject, but they should be careful not to introduce into their teaching inappropriate matter or matter which has no relation to the subject.

As teachers, faculty members are responsible for the following:

- i. to be engaged in the education of undergraduate, graduate and professional students, as appropriate to the mission of each college/school and/or department
- ii. to conduct each course, they have been assigned to teach in general conformity with the content, format, and official description of such course as established by the faculty of the academic unit and approved by the Dean and the Vice Chancellor for Academic Affairs and Provost
- iii. to meet and conduct classes and final exams as well as final projects evaluation at all regularly scheduled times and places. The pertinent administrators or a duly appointed representative may authorize a member of the faculty to be absent from classes or to reschedule the work for reasons of health or when in the best interests of the University
- iv. to develop in students the free pursuit of learning
- v. to strive to obtain and transfer the best scholarly standards of the discipline
- vi. to demonstrate respect for students as individuals and their privacy in academic matters
- vii. to adhere to the proper role of intellectual guide and advisor
- viii. to make every reasonable effort to foster honest academic conduct and assure that the evaluation of students reflects their true merit
- ix. to notify as promptly as possible the Head/Director of the unit whenever emergencies such as illness or accident prevent meeting a scheduled class
- x. to commit to discharging duties and responsibilities primarily on the campus of the University and, when necessary, at other sites as appropriate to the mission of each college/school and/or academic unit

Presence

New faculty members are required to be available on campus two weeks prior to the start of Fall semester classes to take part in a formal new faculty orientation program. Faculty members may take a leave of absence for professional development or in an emergency with written authorization from the Department Head and Dean.

Faculty members are normally expected to be present in their college/school for a minimum of nine hours per week outside their teaching time, as stipulated in faculty contracts, for advising and student conferences throughout the semester. Formally scheduled final examinations are to be given only during the time periods officially announced.

Except for official leaves of absence, release-time provided by research or administrative appointments, special ad-hoc arrangements that permit teaching to be concentrated in one term during a particular academic year, or other official exemptions, faculty are expected to participate fully in the teaching program during each regular term of the academic year.

Teaching Load

For Assistant Professors, Associate Professors, and Professors, all of whom are required to maintain a research program, the normal full-time teaching load across the University is eighteen (18) credit hours per academic year (which is normally equivalent to six regularly scheduled three-credit course sections per academic year, usually split evenly between Fall and Spring semesters).

Instructors and Lecturers are not required to carry out scholarly activities as part of their University appointment. For these faculty members, the full-time undergraduate and graduate teaching load is twenty-four (24) credit hours per academic year.

Multiple sections of the same course are considered as separate courses. In consultation with the Dean, a faculty member may be awarded a course release for scholarly activities, special pedagogical projects or service assignments. Under no circumstances may a faculty member with a course release carry an

overload. A faculty member with a course release may be required to submit a report at the end of the semester regarding the activities carried out.

Final course assignments are determined by the Department Head, following consultation with faculty members and taking into consideration student needs and numbers, contact hours, number of preparations and faculty's expertise. Within the constraints of the units' instructional needs and faculty contracts, the teaching of students at all levels is to be distributed among faculty members without regard to rank or seniority.

Undergraduate Academic Activities outside Scheduled Timings

Faculty members are to abide by the published schedule for class meeting times. Any additional required class meetings (including lectures, exams, laboratories, studios, presentations, etc.) during day-time hours (8:00 a.m. to 6:00 p.m.) of regular class days are prohibited, and those scheduled for evenings and weekends are discouraged. If evening or weekend scheduling is unavoidable, advanced approval of the Dean or designee is required. Required academic activities are not allowed to be scheduled on Fridays and University holidays.

It is recognized that occasionally faculty will be absent from regular class meeting times due to conference attendance or personal emergencies. Faculty should attempt to seek assistance from colleagues to conduct classes in their absence.

Field trips and site visits are recognized as extended learning experiences held off campus. These activities should be pre-announced and dates included in the syllabus of the course. Students who are unable to meet on Saturdays and/or evenings must inform the faculty member by the end of add/drop period to consider alternative venues.

To accommodate graduate students' work schedules, most graduate programs offer their courses in the evening or over the weekend. Each course usually meets once a week for a three-hour duration.

Eligibility for Teaching of Graduate Courses

Faculty members are assigned to teach in graduate programs by the Heads of Department or the Program Coordinators in the respective college/school. To be eligible to teach in a graduate program, a faculty member should hold a terminal degree in a field appropriate to the instructional responsibilities. Faculty not holding the terminal degree must meet both the alternative standards established by the appropriate United States-based accreditation organization for professional qualification and the provisions of the latest CAA *Standards for Licensure and Accreditation*. Further, the faculty member must demonstrate evidence of a strong record of, or potential for, research and scholarly activity or have significant professional experience in applied fields as a practitioner and meet any additional specific eligibility requirements established by each college/school.

B.3.b Scholarly Activities

Faculty members at the professorial rank of Assistant Professor and above are expected to conduct scholarly activities and to disseminate the results of such activities in appropriate peer-reviewed venues. They are expected to base their scholarly activities on an honest search for knowledge with due respect to evidence, impartial reasoning and honesty in reporting.

Because of the professional diversity across the four colleges and school of AUS, the University believes the term "scholarly activities," in this context, must be considered broadly. Therefore, the University defines the term scholarly activity as: scholarly activities directed toward new discovery, investigations resulting in creative and artistic expressions, the evolution of novel and more effective teaching methodologies and materials, and the integration and application of new methodologies in the profession.

Faculty members must ensure, where possible, that their affiliation with AUS appears on all publications and scholarly work produced while employed by AUS. This requirement also applies to

faculty members on sabbatical leave or leave without pay. Scholarly work that is disseminated during the term of employment at AUS without listing the institutional affiliation with AUS may not be considered in contract renewal and/or promotion processes and/or may result in the revocation of research funding if the University sponsored the work.

Intellectual Property: Copyrights and Patents

The University encourages faculty to protect both the University's and their own interests in intellectual property. Reference to the policy governing these issues may be found in Chapter F.

B.3.c Service

All rolling-track faculty members, regardless of rank, are expected to contribute to the administrative work of their respective academic unit and college/school through committee participation. Furthermore, faculty members have the opportunity to serve on the Faculty Senate and its committees as well as on University-wide committees. Faculty members can also serve their profession and the community at large by engaging in activities that facilitate the work of these professional and community organizations. Other service opportunities include institutional development, involvement with students in the total life of the University, and activities that further the University's mission in the public sphere.

B.3.d Professional Conduct, Ethics, and Conflicts of Interest

Professional Conduct

To ensure a professional and collegial work environment, the principles of this Section on Professional Conduct, Ethics, and Conflicts of Interest apply to all faculty members. Faculty must subscribe to high standards of conduct, which include honesty, integrity, and ethical behavior. Membership in the academic community imposes on students, faculty members, and administrators an obligation to respect the dignity of others, to acknowledge their right to express differing opinions, and to foster and defend intellectual honesty, freedom of inquiry and instruction, and free expression.

Professional Ethics

AUS recognizes and supports the principle that faculty members who speak or write as private citizens should be free from institutional censorship or discipline. However, a faculty member's special position in the community imposes particular obligations and serious responsibilities regarding conduct and behavior and requires faculty members to act in the best interests of the profession and the institution.

Academic Ethics and Responsibility

For faculty members the notion of academic freedom is linked to the equally demanding concept of academic ethics and responsibility. As a faculty member, a person assumes certain ethical obligations and responsibilities to students, to fellow faculty members, to the institution, to the profession, and to society at large. Some of these responsibilities are listed below.

Faculty members have ethical obligations and responsibilities to the students of AUS

- i. Faculty members shall foster scholarly values in students, including academic honesty, the free pursuit of learning, and the exercise of academic freedom.
- ii. Faculty members shall act professionally in their academic relationships with students.
- iii. Faculty members shall exercise critical self-discipline and judgment in using, extending, and transmitting knowledge.
- iv. Faculty members are entitled to freedom in the classroom in discussing their subject, but they should be careful not to introduce into teaching inappropriate matters that have no relation to their subject.
- v. Faculty members must maintain respect for students as individuals, within their role as intellectual guides and counselors.
- vi. Faculty members must assure that evaluations of students reflect true merit. Faculty members must avoid taking any action that would compromise the honesty and equity of the evaluations.

- vii. Faculty members shall be available at reasonable intervals to students for consultation on course work through posted office hours.
- viii. Faculty members shall duly acknowledge the contribution of students to their scholarship and research.
- ix. Faculty members shall not engage in any exploitation, harassment, or discriminatory treatment of students.
- x. Counseling of students on non-academic issues should be professional, confidential and within the capabilities of the professor. Students who have serious and sensitive matters, especially if they are related to a specific culture, religion or custom, should be referred to professional counselors available in Student Services.

Faculty members have ethical obligations and responsibilities to other members of the University community

- i. Faculty members shall not engage in any exploitation, harassment, or discriminatory treatment of any members of the University community.
- ii. Faculty members shall acknowledge the academic contributions of others, and strive to be objective in their professional judgment of colleagues. Clearances must be obtained from the relevant persons or individuals when appropriate to the norms of the discipline, and digital and archival material must be used in accordance with the rules of the source.
- iii. Faculty members who are in a supervisory position shall abide by the rules and policies of the current AUS HR (Human Resources) Policy Manual.

Faculty members have ethical obligations and responsibilities to AUS as an institution

- i. In determining the amount (if any) and character of work done outside of the institution, faculty members shall recognize that their primary responsibilities are to the institution. Such outside work shall be consistent with University regulations. Faculty members may follow subsidiary interests, but these must be revealed to the institution and must never compromise their freedom and willingness to draw intellectually honest conclusions.
- ii. When considering the interruption or termination of their service, faculty members shall take into account the effect of their decision upon the institution and give notice of their intentions as per their contract.
- iii. Faculty members shall accept their share of faculty responsibilities for contributing to the governance of the institution.

Faculty members have ethical obligations and responsibilities to their profession

- i. The fundamental responsibilities of a faculty member as a teacher and scholar include:
 - (a) maintenance of competence in one's field of specialization, including appearances in the public arena such as discussions, lectures, consulting, publications and/or participation in professional organizations and meetings,
 - (b) exhibition of such professional competence in the classroom, studio, library or laboratory, and
 - (c) fostering honest academic conduct as specified in the University regulations.
- ii. The demonstration of professional integrity by a faculty member includes recognition that society at large will judge the profession as well as the institution by his/her statements and behavior. Therefore, the faculty member should strive to be accurate, to exercise appropriate restraint, and to be willing to listen to and show respect to members of the society at large expressing different opinions. Faculty members should make every effort to indicate that they are not speaking or acting for the college/school or the University when speaking or acting as a private person.

- iii. Scholarly conduct must avoid fabrications, falsifications, plagiarism and other practices that deviate from accepted scholarly practice.
- iv. Faculty members must apply scholarly rigor and integrity in obtaining, recording and analyzing data as well as in reporting and publishing results.
- v. Faculty members undertaking scholarly activities should do so in a manner consistent with professional honesty and within the public interest. Scholarly activities should be designed to enhance knowledge in a particular field of scholarship and should demonstrate sound methodology, accuracy and maintain the factual integrity of the data.
- vi. Faculty members must use funds designated for scholarly activities in the prescribed manner.
- vii. Faculty members must comply with relevant statutes or regulations for the protection and welfare of researchers, human subjects, the public, laboratory animals and the environment.
- viii. It is the duty of faculty members doing scholarly activities, teaching, laboratory/ studio exercises or other activities to protect the privacy of others, to avoid causing mental or physical harm and to promote safe and healthy working practices and environments.

Conflicts of Interest

Each full-time faculty member owes primary professional responsibility to the University and must avoid outside obligations, financial interests, or employment that can affect the objectivity of decisions as a member of the University community.

- i. Conflict of interest includes any outside obligations, financial interests, and/or employment that can affect the objectivity of decisions.
- ii. Full-time faculty members owe primary professional responsibility to the University and must avoid conflicts of interest.
- iii. Any potential conflict of interest, financial or otherwise, that might influence a faculty member's decisions when the individual is asked to review manuscripts or applications, test products, conduct scholarly activities, or be permitted to undertake work assisted, supported, or sponsored by outside sources must be revealed to a faculty member's immediate supervisor, sponsors, journals, and funding agencies.
- iv. Full-time faculty members should reveal conflict of interest involving family members, including the hiring or evaluating of a family member as an employee or consultant for any project supported by funds administered through the University.
 - v. Full-time faculty members should reveal any conflict of interest involving University purchasing of equipment, supplies, or services from a source in which they or their families have a substantial interest.
 - vi. Faculty and their immediate family members may not accept money or in-kind compensations from students for any services provided.

Violations of Rules Pertaining to Professional Conduct, Ethics, and Conflicts of Interest

Serious violations of the rules governing professional conduct, ethics, and conflicts of interest must be reported or referred to the relevant Department Head (HOD) and will trigger an investigation as outlined in this section. If the Department Head is directly involved in the case or there is a demonstrated conflict of interest, then the matter is referred to the Dean. Allegations of acts of misconduct that were intentionally and knowingly committed must be proven by a preponderance of evidence.

The investigation of alleged violations amounting to professional misconduct, serious ethical violations, and serious unreported conflicts of interest must be carried in a manner that minimizes the risk to the reputation of the accused faculty member, and must be carried out according to strict standards of confidentiality.

In cases of serious violations of the rules governing professional conduct, ethics, and conflicts of interest, sanctions may include one or more of the following disciplinary actions:

- i. Formal written reprimand to be included in the faculty personnel file.
- ii. Reporting offender to external funding organization or to the client to whom consulting and/or outreach activities were provided.
- iii. Cancellation of internal grant proposal and ban from submission to any type of internal grants and sabbatical for two years.
- iv. Reimbursement of full amount granted if proposal is already approved and funds disbursed.
- v. Suspension of merit increase for a period of one to three years.
- vi. Forfeiture of salary, benefits and indemnity payment for faculty members in their terminal year of employment.
- vii. Non-renewal of term contract or suspension of rolling contract with a grace period of two years with the possibility to reapply at the beginning of second year.
- viii. Dismissal from the institution for adequate cause with effect at the end of the academic semester or year.
- ix. Immediate dismissal from the institution for adequate cause.

If the accused faculty member can demonstrate the occurrence of procedural or factual errors in the case, then he/she may seek a remedy in accordance with the Grievance Code outlined in Chapter I.

Formation of the Review Panel

The Vice Chancellor for Academic Affairs and Provost establishes the three-person Review Panel in consultation with the Senate Executive Committee (SEC) from the eligible pool of faculty members. The eligible pool of faculty members shall consist of all faculty members who have at least two years of service at the American University of Sharjah. Administrators, including the Chancellor, Vice Chancellor for Academic Affairs and Provost, Vice Provosts, Deans, Associate Deans, Directors and Department Heads, may not serve on the Review Panel.

The Vice Chancellor for Academic Affairs and Provost and SEC must exercise due diligence that appointees are free of reasonable perceived bias or conflict of interest. The Review Panel will include one member from the school/college of the faculty member accused of the violation and two members from outside the accused faculty member's school/college.

Mandate of the Review Panel

The Review Panel shall investigate the allegations, shall interview the accuser and the accused, and may interview others. Following its investigations, it shall submit a comprehensive written report clearly stating whether it finds the allegations substantiated by a preponderance of evidence or unsubstantiated to the Vice Chancellor for Academic Affairs and Provost, Dean, Department Head, and the accused faculty member.

The report must describe:

- i. the allegations investigated;
- ii. how the investigation was conducted;
- iii. how and from whom information was obtained; and
- iv. the findings and their basis.

The report must also include texts or summaries of the interviews and hearings, if any, conducted by the Review Panel. If the Review Panel determines that the allegations are proven by a preponderance of evidence, it must include in its report a recommendation about the appropriate sanction. If the Review Panel concludes that the allegations are unsupported and maliciously motivated, it may recommend appropriate disciplinary against those responsible for the accusation.

If the Review Panel cannot reach consensus regarding whether the allegations are substantiated by a preponderance of evidence or unsubstantiated, its report must include detailed explanation of the arguments of the majority and minority opinions. In that case, the report must not identify the names of the majority or minority members, and the members of the Review Panel should not disclose that information to anyone.

Unless the Vice Chancellor for Academic Affairs and Provost, for good cause, extends the deadline for completion of the Review Panel's report, the latter must be submitted within four calendar weeks after the Review Panel's first organizational meeting.

B.4 Occasional Work

B.4.a Summer Term Appointments

Rolling-track faculty members are eligible to teach up to the equivalent of seven credits of summer courses. Exceptions to this limitation may be granted by petition to the Dean through the Department Head. Unless other arrangements have been agreed to by the faculty member and the University, faculty members receive additional compensation for summer term teaching. According to current University policy, compensation is calculated as 1/9 of the faculty member's annual salary for each course taught. The minimum and maximum compensation is specified by the Vice Chancellor for Academic Affairs and Provost.

B.4.b Outside Employment

It is recognized that consulting with local firms and institutions adds significant value to the AUS community through enhancement of the faculty's practical experience and new contacts. However, rolling-track faculty members engaging in consulting activities must follow the Consulting Policies given in Chapter F.

Chapter B: Faculty Rights and Responsibilities Procedures

B.1 Purpose

The purpose of this chapter is to describe in detail the procedures regarding the Rights and Responsibilities of faculty.

B.2 Rights

The faculty rights are described in Chapter B (Policy) - Section B.2

B.3 Responsibilities

B.3.a Professional Conduct, Ethics, and Conflicts of Interest

Violations of Rules Pertaining to Professional Conduct, Ethics, and Conflicts of Interest

The procedure in this section is to be used only for serious violations of the rules outlined in Chapter B (Policy) - Section B.3.d which could potentially constitute grounds for termination of employment for adequate cause. Examples of serious violations include, but are not limited to, moral turpitude, falsification of academic credentials, violations of principles of academic integrity, harassment, exploitation, or repeated failures to perform duties as outlined in the *Faculty Handbook*. In no circumstances is it to be used for good faith violations of rules or for minor violations which would normally be addressed by the Department Head (HOD) or as part of the Faculty Annual Review procedure.

The detailed steps for reviewing alleged serious violations of professional conduct, ethics, and conflicts of interest are highlighted in the table below. Every effort should be made to adhere to the following schedule:

Week 1	Potential violation is reported or referred to the HOD, or to the Dean if the HOD is involved.
	If a written allegation and credible evidence is received and verified by the HOD, the HOD must send a written notification to the relevant Dean with all supporting documents.
Weeks 1-2	The Dean must send a written notification, including a description of all alleged violations and the source of the accusation, to the accused faculty member with a copy to the HOD.
	The HOD and Dean must meet with the accused faculty member to discuss the allegation(s) and the evidence compiled by the HOD.
	<p>Following the meeting between the accused faculty member, the HOD, and the Dean, the Dean must determine and notify the Vice Chancellor for Academic Affairs and Provost, the HOD, and the accused faculty member in writing that either:</p> <ul style="list-style-type: none"> i. the case does not warrant further review due to the lack of credible evidence or insufficient severity of the incident and the case is closed; or ii. there are sufficient grounds to refer the case to an independent Review Panel. <p>If the Dean determines that the accusations are unsupported and are maliciously motivated, a Review Panel will be formed and the case will be treated as an instance of alleged misconduct on the part of the accuser.</p> <p>If the accused faculty member confesses to committing the violations, the task of the Review Panel will be limited to recommending the appropriate sanction(s).</p>

	<p>If the allegations of violations of professional conduct, ethics, and conflicts of interest are deemed serious enough to represent a threat to the institution or its members, the Dean, in consultation with the Vice Chancellor for Academic Affairs and Provost, may take appropriate interim measures including suspension from duties until the investigation is complete.</p>
Week 3	<p>If the case warrants review or the accused faculty member confesses to committing the violations, the Vice Chancellor for Academic Affairs and Provost will inform the Faculty Senate President and establish a three-person Review Panel in consultation with the SEC.</p> <p>The formation of the Review Panel, its composition, its mandate, and its procedures are explained in Chapter B (Policy) - Section B.3.d.</p>
Week 4	<p>The accused faculty member will be notified of the names of the members of the Review Panel appointed to conduct the investigation.</p> <p>The accused person may request that the Vice Chancellor for Academic Affairs and Provost replace members of the Review Panel if potential bias or conflict of interest is reasonably demonstrated. If the accusation entails exploitation or harassment, then the accuser may request that the Vice Chancellor for Academic Affairs and Provost replace members of the Review Panel if potential bias or conflict of interest is reasonably demonstrated. In either case, the Vice Chancellor for Academic Affairs and Provost will find replacements in consultation with the SEC.</p> <p>The accused faculty member may submit to the Review Panel during this week a written statement addressing the allegations made against him/her.</p>
Weeks 5–8	<p>The Review Panel investigates the allegations. Following its investigations, it submits a comprehensive written report clearly stating whether the allegations are substantiated by a preponderance of evidence or unsubstantiated to the Vice Chancellor for Academic Affairs and Provost, the Dean, the HOD, and the accused faculty member.</p> <p>If the Review Panel determines that the allegations are proven by a preponderance of evidence, it must include in its report a recommendation about the appropriate sanction.</p> <p>If the Review Panel concludes that the allegations are unsupported and maliciously motivated, it may recommend appropriate disciplinary action against those responsible for the accusation.</p>
Week 9	<p>The accused faculty member will have 7 calendar days to respond in writing to the report of the Review Panel. He or she sends the written response to the Vice Chancellor for Academic Affairs and Provost with copies to the Dean, the HOD, and Review Panel.</p>
Week 10	<p>Upon receiving the written reply, the Review Panel will have 7 calendar days to consider the accused faculty member's reply and develop a response. If it chooses to respond, it submits its response in writing to the Vice Chancellor for Academic Affairs and Provost with copies to the Dean, and the HOD.</p>
Weeks 11-12	<p>Following a review of the written report of the Review Panel and any following responses by the accused faculty member and the Review Panel, the Vice Chancellor for Academic Affairs and Provost must notify in writing the accused faculty member, with copies to the Dean and the HOD, of his/her final decision within 14 calendar days. This written notification must include a detailed explanation of his/her decision.</p>

Procedures for the Review Panel

The Review Panel elects its own chair. It may not meet if a member is absent. It establishes procedures necessary for a fair and orderly hearing, it seeks documents or other evidence relevant to the allegations, and it calls witnesses to give testimony. Decisions regarding its procedures are reached by a majority vote.

Parties to the review may choose to be assisted by an advisor during the hearings. The Review Panel may also have an advisor. All advisors must be employees of the University. The same individual cannot serve as both witness and advisor.

Once the Review Panel has completed its receipt of oral and written evidence, it shall meet in executive sessions to consider its conclusions and recommendations. In executive session, only members of the Review Panel shall be present, provided, however, that, at the Review Panel's discretion, a personnel officer or legal advisor of the University may be present as an advisor to the Review Panel.

Chapter C: Department Head Appointment, Rights and Responsibilities Policy

C.1 Purpose

The successful performance of the head of an academic department is vital to the accomplishment of the mission and vision of that department and, by extension, of the college/school in which that department resides and the University. His/her professional and personal conduct affect the welfare of the academic department; the academic quality of the department in terms of the teaching and scholarship performance of its faculty; the quality of life of its faculty; the professional growth and fulfillment of its undergraduate and graduate students; and the internal and external public image of the department. Consequently, the purpose of this policy is to set the parameters for the Department Head (HOD) position.

C.2 Responsibility and Accountability

Reporting to the Dean, the Department Head is responsible for administering the human, fiscal and physical resources of the Department, in ways that promote quality in every aspect of Departmental life and programs, and in accordance with the University's vision, mission, and strategic plan. The Department Head promotes an environment that supports faculty members and students in their efforts to succeed. In carrying out these responsibilities, the Department Head engages in collaborative leadership with the faculty according to the AUS shared governance model of academic administration.

The Department Head is responsible and accountable for the following:

- i. Fostering an environment of shared purpose and responsibility, transparency, good citizenship and academic excellence.
- ii. Ensuring University policies, procedures, and processes are followed.
- iii. Enhancing the student academic experience and addressing student concerns.
- iv. Encouraging and facilitating the instructional and scholarly development of faculty.
- v. Conducting structured faculty evaluations, as outlined in Chapter D, and annual staff evaluations.
- vi. Participating in faculty hiring as described in Chapter A.
- vii. Contributing to assess and implement curricular changes.
- viii. Developing teaching schedules and service assignments, with consideration given to interests solicited from the faculty.
- ix. Leading program accreditation efforts in the Department.
- x. Promoting Departmental programs internally and externally.
- xi. Proposing and managing the budget of the Department in consultation with faculty.
- xii. Formulating and updating strategic planning, in collaboration with faculty and in line with college/school/University plans.
- xiii. Advocating on behalf of the faculty and serving as a communication conduit between the Dean and the Department.

C.3 Department Head Search

The Department Head position is open for internal and external candidates. AUS is committed to promoting internal, qualified faculty into administrative and leadership positions.

The Procedure for the Department Head Search can be found in Chapter C (Procedures) - Section C.2.

- i. All information and deliberations concerning a search for a Department Head are strictly confidential. Only the Dean or the Dean's designee will have contact with any candidate, either directly or indirectly with regard to the search.
- ii. Participation in the search process, including membership in the Department Head Search Committee (DHSC), is limited to rolling-track faculty, who have not been officially notified of a final contract non-renewal decision.

- iii. Internal candidates for the position are not eligible to participate in the search process; DHSC members cannot apply for the position.
- iv. The DHSC is composed of seven voting members. The faculty of the department elect three members by secret ballots and draw the names of two other members at random from the pool of eligible departmental faculty. The Dean appoints two faculty members, who may or may not have administrative duties, from inside or outside the department. The Dean selects the chair of the committee from the DHSC. As much as possible, the committee should represent the diversity of the department, including any disciplinary subfields.
- v. Search procedure shall follow that prescribed for faculty searches in Chapter A.

C.4 Contract and Compensation

- i. The term of appointment of the Department Head is for three years, renewable for another three years after a comprehensive review of performance.
- ii. The Department Head is appointed as a faculty member with administrative duties and includes an administrative stipend over and above the base salary.
- iii. Department Heads are expected to teach nine credit hours per year. With the concurrence of the Vice Chancellor for Academic Affairs and Provost, the Dean may allow a smaller or higher teaching load for the Department Head.
- iv. Department Heads are not eligible for overload pay. With the approval of the Vice Chancellor for Academic Affairs and Provost, a Department Head may teach one summer course for additional compensation, when no other rolling-track faculty are available to teach the course.

Chapter C: Department Head Appointment, Rights and Responsibilities Procedures

C.1 Purpose

The successful performance of the head of an academic department is vital to the accomplishment of the mission and vision of that department and, by extension, of the college/school in which that department resides and the University. His/her professional and personal conduct affect the welfare of the academic department; the academic quality of the department in terms of the teaching and scholarship performance of its faculty; the quality of life of its faculty; the professional growth and fulfillment of its undergraduate and graduate students; and the internal and external public image of the department. The procedures described here outlines the process of appointment and reappointment of a Department Head (HOD).

C.2 Department Head Search

- i. Search shall follow the procedure prescribed for faculty search in the *Faculty Handbook*.

C.3 Evaluation and Contract Renewal

- i. The Dean evaluates the Department Head annually, after receiving structured written input from full-time, rolling-track faculty members in the Department.
- ii. The Dean will make the contract renewal decision by the start of the third year of each three-year term of appointment, based on a comprehensive review of performance and after receiving structured input from Departmental faculty.

Chapter D: Faculty Performance Evaluation Policy

D.1 Purpose

Faculty performance evaluations will be conducted periodically for the following purposes: to support and encourage excellence by recognizing and rewarding performance that advances the mission of the University; to assess faculty in the areas of teaching, scholarly activities (research and creative activities) and service; to provide guidance to faculty members regarding professional improvement and development; and to obtain information relevant to contract renewal/extension, promotion, termination, or merit pay decisions.

D.2 Performance Evaluation Criteria

Faculty members' performance evaluations will be conducted based upon criteria in this section in the areas of teaching, scholarly activities, and service.

The specific performance criteria used in the evaluations can vary among the departments and across colleges/school. The performance criteria for each department will be developed by the college/school leadership team and shall require final approval by the Vice Chancellor for Academic Affairs and Provost. Copies of the current performance criteria must be available to the faculty. These performance criteria will be used for end-of-year, rolling contract, promotion, and in-depth evaluations.

D.2.a Teaching Activities

Teaching includes educational activities that directly involve students. Activities in this area may include the following: classroom instruction; advising; developing and testing new educational methods, new evaluation methods; teaching new courses; serving as a course coordinator; and/or revising and improving existing courses. Also included in teaching are supervision of students' theses, dissertations, and final projects. Teaching should be evaluated using multiple measures such as:

- i. Course portfolios
- ii. Curriculum development
- iii. Flexibility to teach different courses
- iv. Peer Evaluations
- v. Evaluations by Department Head/Director
- vi. Textbooks and supplementary teaching material
- vii. Course revision/improvement
- viii. Teaching evaluations by students
- ix. Teaching technology tools
- x. Advising undergraduate projects

D.2.b Scholarly Activities

The highest indication of scholarly activities is the development, presentation and documented acceptance of original work in the professional community. Excellence in scholarly activities typically reveals itself as continuing scholarly work documented primarily in publications appearing in relevant journals, in the form of books published by companies respected in the professional community, or curated and reviewed exhibitions of creative works. Citations of a candidate's work in the professional literature and/or journal impact factor are other indicators of scholarly activities.

As part of scholarly activities, creative work may include, but is not limited to, literary publications, drawings, paintings, models, exhibitions, installations, digital creations and built work as well as

other work authored by the candidate. Assessment of creative work will be through examination of the normal products of such activity.

The publication of a textbook is considered as a scholarly activity and its evaluation weight depends on the nature of the textbook and the contributions it makes to the field.

The following are examples of scholarly activities fulfilling performance evaluation criteria:

- i. Refereed journal publications
- ii. Books and book chapters
- iii. Refereed conference proceedings
- iv. Citation index/Impact factor
- v. Refereed conference presentations
- vi. Internal/external research grants
- vii. Supervising graduate theses/projects
- viii. Patents obtained
- ix. Presentations at international conferences
- x. Creative endeavors such as art pieces, films, etc. presented to juried exhibitions

D.2.c Service

Service is non-remunerated work other than teaching or scholarly activity on behalf of the University or external to the University. Service is one of the three performance areas required from a faculty member for annual evaluation, contract renewal, rolling contract, in-depth and promotion review. The University commends faculty for undertaking a variety of volunteer work external to the University, but to be included in the evaluation, it must be related to the faculty member's professional expertise.

The following are examples of service performance evaluation criteria:

- i. Service to Department
- ii. Service to College/School
- iii. Service to University/Senate
- iv. Service as reviewer in the profession
- v. Member on Editorial Board
- vi. Service in organizing a conference
- vii. Outreach activities (e.g., workshops, consultation, training, etc.)
- viii. Mentoring and advising students

D.3 Information and Materials Required for Faculty Performance Evaluations

Evaluations will be based on the professional responsibilities of the faculty member in the areas of teaching, scholarly activities, and internal and external service. It is recognized, however, that within the broad definitions of these areas, the activities in which the faculty engage in fulfilling their professional assignments can vary from one department to another.

D.4 Relative Weights of the Main Performance Areas

For end-of-year annual evaluation purposes, the Colleges/School should establish clear guidelines for a faculty member to meet expectations in the three areas of performance.

Relative weights approved by the Head of Department may be established to typically reflect the percent of time that the faculty member spends in the three areas of performance and should be reported in the Faculty Annual Report (FAR).

D.5 Faculty Performance Evaluation

At the beginning of each academic year the Vice Chancellor for Academic Affairs and Provost will establish deadlines for the completion of the performance evaluation processes.

In all contract-related evaluations (Sections D.5.a to D.5.c), the Dean will provide a summary of the unit's evaluations to the faculty member. The faculty member has the right to review the Dean's performance evaluations and recommendations. The faculty member has the option of attaching a written response to the file. If shortcomings are identified, appropriate plans for professional development and improvement should be worked out between the faculty member, the Department Head/Director, and the Dean of the college/school. The plan will be part of the dossier for future reference.

For individuals with joint appointments, their related (when applicable) annual evaluation, salary raises, promotion, rolling contract, in-depth decision and disciplinary actions should be conducted by their primary unit in collaboration with and/or participation of the secondary unit(s). The primary unit is responsible for actively coordinating the process and seeking input from the secondary unit(s) and submitting it with the final reports. The agreement at the time of appointment must specify the method that will be used to collaborate and to solicit input from the secondary unit(s). For all evaluations, the weighting of performance criteria should be consistent with the specific expectations articulated in the agreement.

D.5.a Evaluation for Annual Faculty Performance

Assessments are conducted at the end of the Spring semester each year. Evaluation of faculty performance is designed to provide a planning mechanism for faculty development, to recognize excellence in role performance, to improve teaching, to enhance professional competencies, and to delineate areas for improvement. The first purpose of this evaluation is to provide a basis for professional growth and development. Professional growth plans serve as the framework for the evaluation and recognition of past endeavors and for focusing on future goals and objectives. A second purpose of faculty performance evaluation is to recognize past professional performance and, as approved by the Administration and the Board of Trustees, to reward those endeavors with appropriate merit increases in salaries, while also providing feedback to faculty demonstrating a need for improvement. A third purpose of the faculty performance review is to provide a structure for systematically measuring progress and to substantiate consideration toward a rolling contract and promotion.

D.5.b Evaluation for Contract Decisions

Awarding of the Second Contract

Assessment for the purpose of awarding a second contract is to be completed before the outset of the last academic year of the existing contract. Based on the annual evaluation described in Section D.5.a, the Dean of the unit recommends to the Vice Chancellor for Academic Affairs and Provost either awarding the faculty member a second three-year contract or offering a terminal one-year contract effective the following Fall.

Awarding of the Three-Year Rolling Contract

Faculty members applying for a three-year rolling contract must provide a cumulative dossier that covers teaching, scholarly activity, and service during the period of employment at AUS. The in-depth evaluation process is detailed in Section D.6.

The outcome of the evaluation is one of the following for full-time faculty members:

- i. A three-year rolling contract beginning the Fall semester of the following academic year; or
- ii. A one-year, terminal contract effective the following Fall for full-time faculty.

Guidelines Regarding External Peer Review

- i. Scholarly activities must be evaluated by external reviewers in the field who are in a position to give an objective evaluation. These reviewers will not be from schools where standards of performance and expectations are substantially higher or lower than those of AUS. At least one of the reviewers will be chosen from the candidate's list. None of the reviewers should be current or former members of the AUS faculty, former teachers, co-workers, co-authors, or students of the candidate. Reviewers should be acquainted with the candidate through his/her published work or other professional accomplishments. All external reviewers should have attained the rank pursued or higher.
- ii. Since standards of acceptable scholarly activities may properly vary from one department to another within an institution, and from one institution to another, it is important that the standards applicable to a given application be clearly explained to each external evaluator.
- iii. Each reviewer must be requested to justify any conclusions regarding the quality of the scholarly activities of the applicant and do so at a level of detail that permits an understanding of the achievement of the applicant relative to standards of excellence in his/her field. The degree to which the external assessments will be considered is based on the cogency of the argument made.
- iv. The acceptable level of the quality of the scholarly work and its impact on a rolling contract recommendation or decision is a matter of judgment at the various steps of the evaluation process.

Extension of Existing Rolling Contract

Assessment for the purpose of extending an existing rolling contract is conducted every year and is based on assessment of the faculty member's academic performance as reflected in performance evaluations and annual recommendations as described in Section D.5.a and based on criteria described in Section D.2. The Dean of the college/school, in consultation with the Department Head, recommends to the Vice Chancellor for Academic Affairs and Provost either extension of the faculty member's rolling contract for another year, or an in-depth evaluation of the faculty member's academic performance.

The outcome of this in-depth evaluation is one of the following:

- i. extension of the rolling contract; or
- ii. non-extension of the rolling contract, with a terminal year during the academic year immediately following the decision.

D.5.c Evaluation for Promotion Decisions

At certain points during their employment history, faculty members may elect to apply for promotion. It is the responsibility of the Department Heads/Directors to inform faculty early on of the expectations for the granting of a promotion within a given department and the University as a whole.

- i. To be considered for promotion, a candidate must meet minimum eligibility requirements, which include time-in-rank as set forth in the *Minimum Criteria by Rank* Section below;
- ii. To be granted promotion, a candidate must meet clear and distinct criteria established by the administration and faculty members as set forth in Section D.2.

Eligibility

A faculty member is considered for promotion to a higher rank based on demonstrated quality in teaching, scholarly activities, and service, and becomes eligible to apply for promotion after a period of five years in the preceding rank with a minimum of one year under full-time faculty contract at AUS. Faculty who wish to apply for promotion early must meet the minimum criteria that apply

to the five-year promotion requirement and must have a record of achievement in teaching, scholarly activity, and service that is at least equal to the record expected of a faculty member coming up after five years at rank. In such a case, the Department Head/Director and the Dean of the college/school must add to the candidate's dossier a written supporting report justifying the basis for early promotion. An unsuccessful candidate for early promotion can reapply only after serving five years at rank.

When a new faculty member has approved post terminal degree professional experience, whether academic or industrial that relates to the intended area of teaching and research, the Dean of the hiring college/school, with approval of the Vice Chancellor for Academic Affairs and Provost, may award a maximum of two (2) years of credit toward promotion eligibility at AUS. Additionally, at least three (3) years of full-time teaching experience must be evidenced to be eligible to apply for promotion.

Promotion Procedure

Though the promotion application procedure may vary across the University's colleges/school, the evaluation procedures should achieve a fair and objective evaluation of the applicant's total record in terms of teaching, scholarly activities, and service.

Preparation and Submission of Applications for Promotion Consideration

An evaluation file for promotion consideration is prepared by the faculty member. Many elements of the evaluation file should already be present in the faculty member's dossier on file in the Dean's Office.

Guidelines Regarding External Peer Review

Scholarly activities must be evaluated by external reviewers in the field who are in a position to give an objective evaluation. These reviewers will not be from schools where standards of performance and expectations are substantially higher or lower than those of AUS. At least one of the reviewers will be chosen from the candidate's list. None of the reviewers should be current or former members of the AUS faculty, former teachers, co-workers, co-authors, or students of the candidate. Reviewers should be acquainted with the candidate through his/her published work or other professional accomplishments. All external reviewers should have attained the rank pursued or higher.

Since standards of acceptable scholarly activities may properly vary from one department to another within an institution, and from one institution to another, it is important that the standards applicable to a given application be clearly explained to each external evaluator.

Each reviewer must be requested to justify any conclusions regarding the quality of the scholarly activities of the applicant and do so at a level of detail that permits an understanding of the achievement of the applicant relative to standards of excellence in his/her field. The degree to which the external assessments will be considered is based on the cogency of the argument made.

The acceptable level of the quality of the scholarly work and its impact on a promotion recommendation or decision is a matter of judgment at the various steps of the evaluation process.

Minimum Criteria by Rank

The University has established the following minimum criteria for promotion to the academic rank cited. All faculty members are expected to demonstrate the highest levels of character and professional ethics when representing the University, and to be a role model.

Senior Instructor

Promotion to Senior Instructor requires five years of full-time teaching as an Instructor, or equivalent professional experience, including at least one year of full-time service as an Instructor at AUS. A candidate for Senior Instructor will demonstrate a superior record of effectiveness in teaching and

constructive participation in service, according to the promotion guidelines developed in the college/school.

Senior Lecturer

Promotion to Senior Lecturer requires at least five years in the rank of Lecturer, including at least one year of full-time service at that rank at AUS. A Senior Lecturer will possess a doctorate or appropriate professional degree in the field. The candidate will have demonstrated a superior record of teaching effectiveness and substantial service to the University and the community at large. A Senior Lecturer will display consistently mature performance in course and curriculum planning, guiding and counseling students, mentoring, and participating in University and community service.

Associate Professor

Promotion to Associate Professor requires at least five years in the rank of Assistant Professor, including at least one year of full-time service in the rank of Assistant Professor at AUS. An Associate Professor will possess a doctorate or appropriate terminal professional degree and have substantial experience in teaching and scholarly activity or applicable professional experience. The candidate will demonstrate teaching effectiveness and have the interest and capacity for continuing growth as a teacher, scholar, and member of his/her profession. An Associate Professor will display consistently mature performance in course and curriculum planning, guiding and counseling students, mentoring junior faculty, and participating in University and community service.

Professor

Promotion to Professor requires at least five years in the rank of Associate Professor, including at least one year of full-time service in the rank of Associate Professor at AUS. The rank of Professor recognizes the attainment of authoritative knowledge and the achievement of effective teaching skills. The Professor will have attained an excellent reputation in his/her field of expertise, as evidenced by scholarly activities, teaching excellence, leadership within his/her department and within his/her professional or learned organizations, and effective participation in University and community service.

D.6 The In-Depth Evaluation Process

D.6.a The In-depth Evaluation Process

The faculty evaluation process is established for the evaluation of all full-time faculty members for the purposes of the awarding of a rolling contract and renewal of an existing rolling contract. In such a case, a candidate will be evaluated separately and independently by his/her Department Head/Director and Faculty Personnel Committee (FPC). Subsequently, the Dean reviews these separate recommendations and write his/her own recommendation. In cases of diverging recommendations from the Department Head/Director, FPC and the Dean, the case is referred to the Faculty Evaluation Review Committee (FERC). After receiving all preceding performance evaluations, the Vice Chancellor for Academic Affairs and Provost will conduct his/her own assessment and make a recommendation to the Chancellor. For applicants who are considered for the award of a three-year rolling contract at the time of hire, the evaluation process will be carried out according to a timeline established by the Vice Chancellor for Academic Affairs and Provost.

D.7 Structure of Evaluation Committees

D.7.a Faculty Personnel Committee (FPC)

Purpose. The purpose of the FPC is to write recommendations concerning decisions related to renewal of contracts, rolling contracts, renewal of existing rolling contracts, and promotions.

i. Composition of the FPC:

- (a) The FPC consists of four "permanent" members, two from inside and two from outside

the college/school, and three “temporary” members from the candidate’s department.

- (b) Non-administrator professors of a college/school who are not on leave, who already have rolling contracts, and who are not subject during their service term to an in-depth review will be eligible to serve as “permanent” members on the FPC. Associate professors will be considered where the number of full professors in the college is inadequate.
- (c) Non-administrator assistant professors, non-administrator associate professors, and non-administrator professors of a department who are not on leave, who have served at least three years teaching in the department or program at AUS, and who are not subject in that year to an in-depth review will be eligible to serve as “temporary” members of the FPC.
- (d) Selection of the members of the FPCs will take place before the end of the week 3 of classes in Fall Semester of each year. In no case will an FPC selection process occur before the selection of the membership of that year’s Faculty Evaluation Review Committee (FERC).

ii. **Terms of members:**

- (a) The “temporary” members of the FPC will have a term of one year;
 - (b) The “temporary” members of the FPC may serve a maximum of two consecutive terms;
 - (c) The “permanent” members of the FPC will have a term of two years;
- One of the internal “permanent” members and one of the external “permanent” members will retire when the FPC concludes its duties for an academic year.

iii. **Work:**

- (a) The FPC establishes its own *modus operandi* including reporting on any conflict of interest, so long as the Performance Enhancement and Achievement Review and the general standards set forth in 6.F are adhered to;
- (b) All members of the FPC participate in the review of all in-depth review cases. In rolling contract and renewal of existing rolling contract cases, all FPC members vote/recommend; in promotion cases only members at the rank sought or above are eligible to vote;
- (c) Should any member of the FPC have a conflict of interest regarding any case, as decided upon by the FPC, then he/she should be recused for all discussions and voting on that case.

D.7.b Faculty Evaluation Review Committee (FERC)

Purpose. The purpose of the FERC is to evaluate applications when the recommendations of the Department Head/Director, the college/school FPC, and the Dean differ. The Vice Chancellor for Academic Affairs and Provost also has the discretion to refer cases to the FERC when he or she deems it appropriate to do so. The committee will write recommendations to the Vice Chancellor for Academic Affairs and Provost concerning decisions related to renewal of contracts, rolling contracts, renewal of existing rolling contracts, and promotions and will advise the Vice Chancellor for Academic Affairs and Provost in matters relating to the policy and processes involved with in-depth, promotion, and rolling contract reviews.

i. **Composition of the FERC:**

- (a) Non-administrator Full Professors of a college/school who are not on leave, who already have rolling contracts, who are not subject during their service term to an in-depth review, and who are not members of the FPC will be eligible to serve on the FERC.
- (b) The FERC consists of four eligible faculty members, representing respectively the four colleges/school elected by the faculty, plus an at-large eligible faculty member appointed

by the Vice Chancellor for Academic Affairs and Provost.

ii. **Terms:**

- (a) FERC members will have a term of two years, staggered terms;
- (b) First year exception: before the election in the first year, the Vice Chancellor for Academic Affairs and Provost in coordination with the Faculty Senate President will determine which two colleges/school members of the FERC will serve for one year and which will serve for two years;
- (c) The at-large FERC member will have a term of one year;
- (d) FERC members may serve a maximum of two consecutive terms.

iii. **Work:**

- (a) The FERC will review the performance evaluations and recommendations of a faculty member being evaluated for renewal of contract, rolling contract and/or for promotion when the recommendations of the Department Head/Director, the college/school FPC, and the Dean differ, and will make recommendations concerning renewal of contract, rolling contract, and/or promotion for each candidate;
- (b) Should any member of the FERC have a potential conflict of interest regarding any case, as decided upon by the FERC, then he/she should recuse him/herself for all discussions and voting on that case.

D.7.c Confidentiality

Absolute confidentiality is required in the review process, and all participants are expected to maintain the strictest secrecy concerning all deliberations, votes, decisions, and recommendations.

- i. Committees and individuals involved in faculty evaluations are expected to act in a professional manner to protect the integrity of the review process.
- ii. The nature of the evaluations mandates that the work of review committees be conducted confidentially and only within committee meetings so that participants can feel free to voice opinions without fear of reprisals or concerns about confidentiality being compromised.
- iii. Participants in the evaluation process must not reveal or share any material or discussions that take place during the deliberations, either while the deliberations are in process or forever afterward.
- iv. Failure to adhere to strict standards of confidentiality are to be reported to the relevant Dean or to the Vice Chancellor for Academic Affairs and Provost and after consultation with the Faculty Senate President, may result in serious sanctions being imposed on violators.

Chapter D: Faculty Performance Evaluation Procedures

D.1 Purpose

Faculty performance evaluations will be conducted periodically following the procedures outlined below.

Definitions:

Dossier: documents maintained by the Deans' Office and updated by the candidate which include scholarly work, creative endeavors, evaluations of teaching, and evidence of service, as described below in Section D.3.

Evaluation file: documents pertaining to In-Depth review which include documents already present in the candidate's dossier in addition to the documents described below in Section D.6.

D.2 Performance Evaluation Criteria

Faculty members' performance evaluations will be conducted based upon criteria in this Section in the areas of teaching, scholarly activities, and service.

D.3 Information and Materials Required for Faculty Performance Evaluations

Each Dean's Office will maintain a dossier for each faculty member which includes the following components: the current CV of the faculty member reflecting his/her achievements in the areas of teaching, scholarly activities, and service; Faculty Annual Reports [FARs]; syllabi of courses taught each semester; student enrollment in each course; course assessments; teaching evaluations; and copies of final exams or faculty course portfolio. Each faculty member should continuously update his/her dossier as needed and add documented evidence of achievements and challenges in all areas of professional responsibilities. It is the faculty member's responsibility to ensure that the dossier is complete. Departments will ensure that information related to courses taught and teaching evaluations is updated regularly at the end of each academic year.

D.4 Relative Weights of the Main Performance Areas

Each faculty member should discuss and agree upon the distribution of weights for his/her case with the Department Head/Director at the time of submitting the FAR.

D.5 Procedure for Faculty Performance Evaluation

At the beginning of each academic year the Vice Chancellor for Academic Affairs and Provost will establish deadlines for the completion of the performance evaluation processes.

D.5.a Evaluation for Annual Faculty Performance

Assessments are conducted at the end of the Spring semester each year.

The following procedure must be followed:

- i. The Department Head evaluates the performance of the faculty member in the areas of teaching, scholarly activities and service. Feedback on teaching outside the home department must be solicited by the Department Head and considered in the evaluation.
- ii. The Department Head considers the FAR within the context of the criteria set by the department for faculty evaluation purposes and submits his/her written performance evaluation and recommendation to the Faculty member along with a date by which the written response is to be provided;
- iii. The Faculty member may provide a written response to the Department Head report.
- iv. The Department Head will take one of the following actions after the deadline for receipt of written responses from Faculty members:

- (a) If the Faculty member provides a written response, the Department Head will consider the response and submit both the performance evaluation and recommendation and the Faculty member's response to the Dean.
 - (b) If the Faculty member does not provide a response, the Department Head will submit the performance evaluation and recommendation to the Dean.
- v. The Dean will (i) review the Department Head performance evaluation and any response provided by the faculty member, and (ii) conduct an independent evaluation. The Dean may take one of the following actions:
 - (a) If the Faculty member is in the second year of a first three-year contract, the Dean recommends whether or not a second three-year contract should be awarded as per Section D.5.b Awarding of the Second Contract.
 - (b) If the Faculty member is on a rolling contract, the Dean recommends whether or not the rolling contract should be extended by one year as per Section D.5.b Extension of Existing Rolling Contract.
- vi. The Faculty member may provide a written response to the Dean's evaluation.
- vii. The Vice Chancellor for Academic Affairs and Provost will review the Department Head performance evaluation and recommendation, the Dean's recommendation, the Faculty member's response(s), and inform the Faculty member of the final decision made by the Vice Chancellor for Academic Affairs and Provost.

The deadline for notification for the outcome of the Annual Evaluation and any merit increase decision is no later than the beginning of the Fall semester classes.

D.5.b Evaluation for Contract Decisions

Awarding of the Second Contract

Assessment for the purpose of awarding a second contract is to be completed before the outset of the last academic year of the existing contract. Based on the annual evaluation described in Section D.5.a, the dean of the unit recommends to the Vice Chancellor for Academic Affairs and Provost either awarding the faculty member a second contract or offering a terminal one-year contract effective the following fall.

The Vice Chancellor for Academic Affairs and Provost reviews the file, decides on the case, and informs the faculty member if a second contract will be awarded no later than the beginning of the Fall semester classes.

Awarding of the Three-Year Rolling Contract

Information on the eligibility to apply for a three-year rolling contract is provided in Chapter A (Policy)-Section A.4.c, commensurate with the college/school's criteria for award of a three-year rolling contract. The in-depth evaluation process is detailed in Section D.6.

Guidelines Regarding External Peer Review

Scholarly activities must be evaluated by external reviewers in the field who are in a position to give an objective evaluation. A list of reviewers should be submitted by the candidate no later than the end of week three of the Fall semester. In addition, department heads should maintain a reliable and appropriate compilation of external reviewers on file in the Office of the Dean. The Dean's Office will make every effort to obtain three or more reports from external reviewers to be used as part of the evaluation of the candidate's scholarly activities. The rank of external referees should be at least equivalent to that of the candidate and no lower than the rank of associate professor.

The applicant's curriculum vitae and copies of scholarly work should be sent to the reviewers, together with a briefing about AUS and an explanation of the conditions and expectations under which the applicant has worked. Since standards of acceptable scholarly activities may properly vary from one department to another within an institution, and from one institution to another, it is important that the standards applicable to a given application be clearly explained to each external evaluator. A copy of the explanation of conditions and expectations furnished to each reviewer should be included with the application.

Each reviewer must be requested to justify any conclusions regarding the quality of the scholarly activities of the applicant and do so at a level of detail that permits an understanding of the achievement of the applicant relative to standards of excellence in their field. The degree to which the external assessments will be considered is based on the cogency of the argument made.

Extension of Existing Rolling Contract

The Vice Chancellor for Academic Affairs and Provost reviews the file, decides on the case, and informs the faculty member if an in-depth review is necessary. A decision to conduct an in-depth evaluation is non-grievable. For the sole purpose of awarding or extending a rolling contract, there should be a minimum of three years between successive in-depth reviews, that exclude in-depth waivers and promotion reviews. The deadline for the Vice Chancellor for Academic Affairs and Provost to send a letter stating the extension of the rolling contract for one year is by the end of week three of the Fall semester.

Notwithstanding the foregoing, an in-depth evaluation will be carried out during the sixth year since the last evaluation, unless the in-depth evaluation for continuation of the rolling contract has been waived by the Dean in consultation with the Department Head. If an in-depth evaluation of the faculty member's academic performance is conducted, the process as detailed in Section D.6. is followed.

D.5.c Evaluation for Promotion Decisions

At certain points during their employment history, faculty members may elect to apply for promotion. It is the responsibility of the Department Heads/Directors to inform faculty early on of the expectations for the granting of a promotion within a given department and the University as a whole.

Eligibility

A faculty member is considered for promotion to a higher rank based on demonstrated quality in teaching, scholarly activities, and service, and becomes eligible to apply for promotion.

Promotion Procedure

Though the promotion application procedure may vary across the University's colleges/school, the evaluation procedures should achieve a fair and objective evaluation of the applicant's total record in terms of teaching, scholarly activities, and service.

The promotion procedure follows these steps:

- i. The eligibility of a faculty member for promotion is established by the Dean of the college/school in consultation with the Department Head/Director;
- ii. A candidate for promotion prepares and submits to the Dean of the college/school an evaluation file with an application for promotion consideration. The Dean adds other necessary documents as detailed in the File Preparation and Submission section below;
- iii. The Dean, in consultation with the Department Head and other appropriate members of the department, selects appropriate external evaluators of the scholarly activities of the candidate from lists provided by the candidate and the Department Head. Guidelines regarding external peer review are described in the Guidelines Regarding External Peer Review section below;
- iv. The in-depth evaluation process is described in Section D.6.

Guidelines Regarding External Peer Review

Scholarly activities must be evaluated by external reviewers in the field who are in a position to give an objective evaluation. A list of reviewers should be submitted by the candidate no later than the end of week 3 of the Fall semester. In addition, Department Heads should maintain a reliable and appropriate compilation of external reviewers on file in the office of the Dean. The Dean's Office will make every effort to obtain three or more reports from external reviewers to be used as part of the evaluation of the candidate's scholarly activities. The external reviewers should be at least at the rank considered for promotion and are preferably members of an academic institution.

The applicant's curriculum vita and copies of scholarly work should be sent to the reviewers, together with a briefing about AUS and an explanation of the conditions and expectations under which the applicant has worked. Since standards of acceptable scholarly activities may properly vary from one department to another within an institution, and from one institution to another, it is important that the standards applicable to a given application be clearly explained to each external

evaluator. A copy of the explanation of conditions and expectations furnished to each reviewer should be included with the application.

Each reviewer must be requested to justify any conclusions regarding the quality of the scholarly activities of the applicant and do so at a level of detail that permits an understanding of the achievement of the applicant relative to standards of excellence in his/her field. The degree to which the external assessments will be considered is based on the cogency of the argument made.

Minimum Criteria by Rank

The University has established criteria for promotion as described in Chapter D (Policy)- Section D.5.c.

D.6 The In-Depth Evaluation Process

The faculty evaluation process is established for the evaluation of all full-time faculty members for the purposes of the awarding of a rolling contract, renewal of an existing rolling contract, and promotion to a higher rank.

File Preparation and submission

An evaluation file for consideration is prepared by the faculty member and should include the following. Many elements of the evaluation file should already be present in the faculty member's dossier on file in the Dean's Office:

- i. a cover letter incorporating the faculty member's request for consideration and list of attachments;
- ii. the applicant's current curriculum vita (CV);
- iii. a list of scholarly publications and a copy of selected scholarly publication, providing complete and accurate documentation of all scholarly activities, plus complete bibliographic listings of publications and status of journals (e.g., refereed, indexed, etc.). For promotion, copies of published items and other reported scholarly activities must be available for examination by reviewers;
- iv. a list of scholarly contributions considered in the previous promotion or in-depth review. The candidate should incorporate in the portfolio details of the previous promotion or in-depth review supported by official documents, including a list of counted material (e.g., papers, books, patents, etc.), date of submission for promotion, etc.;
- v. a list and copies of unpublished work (optional);
- vi. a list and description of internal and external service at all levels. When providing evidence to support achievement in service to the relevant profession, academic peers, and the wider community, applicants are encouraged to relate their claims to measurable outcomes that demonstrate their contribution to the initiation and maintenance of links between the University and external groups. Documentation of all service activities is required;
- vii. any other relevant information.

The faculty member's contribution to the file is considered complete when the above documents are submitted to the Dean of the college/school. All pages of the application are to be numbered consecutively by the applicant. Submission of the full application by the candidate, no later than the end of week 3 of the Fall semester, is required for action during that academic year.

To complete the evaluation file, the Dean's office adds the following:

- i. letters from appropriate Deans and Department Heads/Directors of academic units evaluating the candidate's record in teaching, scholarly activities, and service (hard copies of these letters made available to the candidate at his/her request);
- ii. material demonstrating the applicant's record as a teacher.

For promotion, the Dean's office adds:

- i. copies of letters sent to the external evaluators, a statement regarding the procedures used in selecting them, and a brief statement concerning the evaluators' qualifications;
- ii. all letters from external evaluators addressing the quality of the applicant's scholarly contributions, including information about any relationship to the candidate.

D.7 Structure of Evaluation Committees

D.7.a Faculty Personnel Committee (FPC)

Purpose. The purpose of the FPC is to write recommendations concerning decisions related to renewal of contracts, rolling contracts, renewal of existing rolling contracts, and promotions.

- i. **Selection of "permanent" members:**
 - (a) The "permanent" members from within each college/school are randomly selected from a pool of eligible faculty;
 - (b) The college/school Dean and a Senate representative draw two faculty names from the college/school pool to serve on the FPC. As much as possible, diversity of representation from different departments and programs will be sought by drawing additional names;
 - (c) Two external "permanent" members are selected as follows: For each college/school FPC, drawing continues until two faculty members are identified who are neither from the same college/school nor from the host college/school.
 - (d) The drawing will continue until a total of at least three full professors are picked to serve on each FPC.
- ii. **Selection of "temporary" members:**
 - (a) The three "temporary" members of each department or program are selected as follows:
 1. The Department Head or Program Director and the college/school Dean select one person from the department faculty;
 2. The department or program faculty members select one person. Only faculty members whose contracts have not been extended for reasons other than age and who are in their terminal contract year are not eligible to vote in FPC elections;
 3. One name is drawn at random in a manner determined by the Dean;
 - (b) As much as possible, diversity in rank from the department or program will be sought by drawing additional names.
 - (c) If a department or program does not have three qualified faculty members to serve, the Dean in consultation with the eligible faculty from that department or program will appoint enough eligible faculty members from a related discipline in the University to fill the necessary quota. Such faculty members may be from other departments within the same college/school or from other colleges/school within the University;
 - (d) The selection of "temporary" members from a given department or program is obviated in any given year when no faculty within that department or program chooses to or is required to undergo an in-depth review.
- iii. **Meeting procedure:**
 - (a) The senior internal "permanent" member of the FPC will be the chair of the committee. In case the FPC "permanent" members have the same seniority, they will agree on a chair for the committee. The Dean will resolve any differences between them;
 - (b) Should any internal or external "permanent" member of the FPC leave, a "permanent"

replacement will be selected by the following procedure. The college/school Dean and a Senate representative will draw a replacement faculty name from the remaining names in the college/school pool to serve on the FPC;

- (c) Should any “temporary” member of the FPC leave, a “temporary” replacement will be selected by the following procedure. The college/school Dean and a Senate representative will draw a replacement faculty name from the remaining names in the pool to serve on the FPC.

iv. **Voting:**

- (a) Each FPC member will examine thoroughly the candidate’s dossier prior to the FPC meeting scheduled to discuss the application of the candidate;
- (b) The FPC members meet and openly discuss the candidate’s performance in the three areas of teaching, scholarly activity, and service. Following the open discussion, each FPC member will complete and submit to the FPC Chair, a form showing their rating of the candidate in the areas of teaching, scholarly activity, and service, based on the applicable criteria and as prescribed in Section D.2. The Chair of the FPC reads out the ratings and declares the final outcome before the meeting is adjourned;
- (c) Subsequent to the meeting, the Chair of the FPC drafts the recommendation of the FPC and solicits the approval of its content by the FPC members. The recommendation must include the number of “Yes” votes and “No” votes with a summary of the main reasons for the “Yes” votes and the “No” votes on each area;
- (d) Following agreement on the content of the recommendation, the FPC Chair will print a final copy of the recommendation, ensure that all FPC members sign it, and submit it to the Dean of the college/school for inclusion in the application dossier of the candidate.

D.7.b Faculty Evaluation Review Committee (FERC)

Purpose. The purpose of the FERC is to evaluate applications when the recommendations of the Department Head/Director, the college/school FPC, and the Dean differ. The Vice Chancellor for Academic Affairs and Provost also has the discretion to refer cases to the FERC when he or she deems it appropriate to do so.

i. **Election/Selection of members:**

- (a) Every year and during the week 2 of the Fall semester, the rolling-track full-time faculty members in each college/school will elect one eligible faculty member of the FERC in their own college/ school. Faculty members in their last year of service whose contracts have been terminated for reasons other than age and who are in their terminal contract year are not eligible to vote in FERC elections.
- (b) Nomination:
 1. The Senators in each college/school nominate two eligible faculty members for the election;
 2. The Dean, after consultation with the Department Head/Director nominates two eligible faculty members for the election;
 3. Any eligible faculty member can nominate him/herself from his/her respective college/school in a letter to the Senate President at least one week prior to elections. The highest vote getter from each college/school will serve on the FERC;
 4. The Vice Chancellor for Academic Affairs and Provost will select, at the end of week 2 of the Fall semester, the at-large member from among the full slate of nominated candidates.

- ii. **Meeting procedure:**
 - (a) The FERC members will elect a Chair;
 - (b) Should any elected FERC member resign, a permanent replacement will be selected by the following procedure. The senators in the college/school in consultation with the Dean will determine whether an election can be held prior to the date by which the replacement is needed. If it is determined that such an election can take place, then;
 - (c) The replacement will be elected by following the election rules as specified in item 2 above;
 - (d) If it is determined that there is not sufficient time for such an election, then the Dean in consultation with the senators from the college/school will appoint the replacement from the appropriate school/college. If the at-large member resigns, the Vice Chancellor for Academic Affairs and Provost will appoint a new member.

- iii. **Voting:**
 - (a) Each FERC member will examine thoroughly the candidate's file prior to the FERC meeting scheduled to discuss the application of the candidate;
 - (b) The FERC members meet and discuss the candidate's performance based on the candidate's file and the three written performance evaluations and recommendations from the Dean, the Department Head/Director, and the FPC;
 - (c) Following the open discussion, each FERC member will make recommendations concerning renewal of contract, rolling contract and/or for promotion for each candidate;
 - (d) The Chair of the FERC reads out the recommendations and declares the final outcome before the meeting is adjourned;
 - (e) Subsequent to the meeting, the Chair of the FERC drafts the report/recommendation of the FERC and solicits the approval of its content by the FERC members. The report/recommendation must include the number of "Yes" votes and "No" votes with a summary of the main reasons for the "Yes" votes and the "No" votes. There will be no abstentions in voting on the FERC;
 - (f) Following agreement on the content of the report/recommendation, the FERC Chair will print a final copy of the report/recommendation, ensure that all FERC members sign it, and submit it to the Vice Chancellor for Academic Affairs and Provost for inclusion in the application file of the candidate and for his/her review in making a recommendation to the Chancellor.

D.7.c Confidentiality

Absolute confidentiality is required in the review process, and all participants are expected to maintain the strictest secrecy concerning all deliberations, votes, decisions, and recommendations.

Chapter E: Grant Programs Policy

E.1 Purpose

Faculty members at AUS should keep informed of scholarly developments and innovative teaching methods in their fields. The University provides in-service training and travel funds to assist faculty in attending important academic conferences and encourages faculty to take advantage of these academic or professional opportunities. Provisions for faculty development are contingent upon the financial conditions and constraints of the University.

E.2 Faculty Conference Grant Program

Dissemination of scholarly work of faculty through appropriate peer-reviewed channels is essential to recognizing quality of work. Contingent upon availability of funds, other resources, and subject to competition the University will provide funds for travel to professional meetings, conferences, and seminars where faculty members are presenting results of their scholarly activities. The grants cover expenses associated with faculty travel and conference registration fees up to a specified maximum. A faculty member may normally receive only one such grant in any given academic year. However, a faculty member may seek reimbursement for costs of attending one or more additional conferences if conference grant funds remain available at the end of the fiscal year; the same reimbursement limitations apply.

Written requests for conference grants are reviewed and awarded at the academic unit and college/school levels. Each grant request must include information regarding relevance of the conference to the faculty member's professional development as specified by the Office of the Dean.

E.3 Faculty Scholarly Activities Grant Program

The University's motivation for allocating grant funds includes recognition of the following: (a) the institution must support professional development and continuing growth in a systematic way; (b) the institutional reputation and quality of teaching and scholarly activities requires a strong and forward-looking faculty; (c) the institution, to remain competitive, must continue to support efforts to refine and improve scholarly activities and teaching in order to provide students with the best possible education; (d) in as much as research productivity is one of the areas of evaluation for contract renewal/extension and promotion, the institution offers financial support to help its faculty remain productive.

Types of Grants

The Office of Vice Chancellor for Research annually administers the Faculty Research Grant program to support faculty scholarly activities. The Deans also provide an annual Seed Grant funding.

E.3.a The Seed Grant

The purpose of the Seed Grant is to support faculty endeavors in developing pilot projects and/or preliminary data necessary to position themselves for garnering competitive internal and/or external funding.

Eligibility

Full-time faculty at the rank of assistant, associate and full professors are eligible for a Seed Grant (faculty who were hired on temporary, visiting contracts shall be eligible in their first year of rolling-track employment).

Seed grants are only awarded during the first two regular semesters of full-time employment.

E.3.b The Faculty Research Grant

The purpose of the Faculty Research Grant is:

- a. to support development of the scholarly activity program at AUS;
- b. to stimulate external research support, including support in developing pilot projects and preliminary data necessary to prepare competitive proposals.

Chapter E: Grant Programs Procedures

E.1 Purpose

This chapter describes the procedures that govern the internal grant programs outlined in Chapter E: Grant Program Policy.

E.2 Faculty Conference Grant Program Procedures

1. Activities that can be supported by the conference grant program include attending, presenting, or participating in conferences.
2. A faculty member requesting a conference grant applies to her/his college/school through her/his HOD.
3. Faculty members who were not supported by a conference grant during the current academic year are given priority.
4. Contingent upon the availability of funds and according to the applicants' HOD's recommendation and college/school's policy, the applicants' college/school approves or denies the request.
5. A requesting faculty member receives a memo of approval from her/his college upon the approval of her/his request.

E.3 Seed Grant Program Procedures

1. A newly appointed faculty member is eligible for a one-time seed grant during her/his first two academic years at AUS.
2. A faculty member seeking a seed grant makes a request through her/his HOD to her/his college.

E.4 Faculty Scholarly Activities Grant Program Procedures

Procedures governing the faculty scholarly activities grant program follow the established rules, regulations, and standards set by The Office of the Vice Chancellor for Research. Procedures and deadlines are published online by the on the research page on iLearn under Community. Procedures ensure that grants supporting faculty scholarly activities should be awarded based on faculty credentials and their scholarly activities' scientific merit and impact.

Chapter F: Consulting and Intellectual Property Policy

F.1 Purpose

This chapter describes the policies that govern Consulting and Intellectual Property (IP) work of Faculty members.

The initial part of the chapter is the policy governing faculty Consulting to third parties. It defines the parameters and limits of such activities and reasons for those limits.

The rest of the document makes reference to AUS's IP Policy which describes the rights and responsibilities of all the members of the AUS community in all IP innovations, as well as the rights and responsibilities of AUS as an institution.

F.2 Consulting Introduction

AUS acknowledges that consulting is a means of continuing education for faculty, provides them with experience in their professional fields, and may give faculty experiences that enhance their scholarship and teaching. The University also recognizes that consulting could re-direct faculty activity away from their primary responsibilities to AUS.

AUS's policy governing faculty consulting in the UAE and GCC has two purposes:

- i. to define the extent to which faculty may participate in consulting, and AUS policies governing that participation
- ii. to ensure adherence to UAE immigration laws

F.2.a Definition of Consulting

Consulting is a professional activity related to a faculty member's field or discipline, where a fee-for-service or equivalent relationship with a third (non-AUS) party exists (In the GCC and UAE, all endeavors for financial profit, even those not directly related to a person's field or discipline, are also considered consulting and are governed by this consulting policy). In general, in a consulting relationship or fee-for-service arrangement, the faculty member is using his/her professional capabilities to further the agenda of a third, non-AUS, party in return for immediate or prospective gain.

Activities or titles that imply managerial or supervisory responsibility are not permitted under conflict of commitment policies and are not allowable as consulting relations.

Titles such as CEO, director, scientific officer, or vice president, etc., are generally assigned with line management responsibilities. Faculty members must avoid titles that include terms such as executive, officer, director, manager, or chief as they imply or indicate management responsibilities and create real or perceived conflicts of commitment.

Appointments to serve on boards of directors of companies, or on companies' advisory councils or scientific advisory boards and the titles that may pertain to these appointments are not considered managerial roles and titles and are permitted as consulting relations.

F.3 Specific AUS Policies Governing Faculty Consulting

- i. Only with written approval of the respective Dean(s), and the Vice Chancellor for Academic Affairs and Provost may a faculty member perform consultancy services for third parties. The AUS Faculty Consulting Request Form describing the routing and review process for faculty consulting can be obtained from the Office of the Executive Director of Employee Services. The Office of the Executive Director of Employee Services shall review and communicate the decision and terms to the faculty member no later than 10 working days from receiving the form. If consent for these activities is given, the faculty member will be provided with a letter of approval from AUS.
- ii. Consulting is limited to 8 hours per work week during regular semesters (Fall and Spring) and any other restrictions and/or conditions that AUS may decide to impose. This time limit also applies to faculty teaching during the summer, but it is not applicable to faculty who do not teach during the summer.
- iii. A standard consultancy contract must be signed between the faculty member and the outside entity that indemnifies and releases the University, its Officers, and Trustees from any responsibility for the consulting work performed by the faculty member. A recommended format for the consultancy agreements between the faculty member and outside entity can be obtained from the Office of the Executive Director of Employee Services. Failure to abide by these policies constitutes a violation of the faculty member's employment contract with AUS. AUS reserves the right to adjudicate a violation according to the severity of its impacts on the University.
- iv. The determination as to whether an external source of funding administered by the University is a research or a consulting contract is made by the Vice Chancellor for Academic Affairs and Provost.

F.4 Activities Not Considered Consulting

Several types of faculty activity, other than regular AUS activities, are not considered consulting in the GCC or elsewhere, and are not subject to this policy:

- i. **Publication:** Scholarly communications in the form of books, movies, television productions, art works, etc., though frequently earning financial profit for a faculty member and for another party (e.g., publisher), are not viewed as consulting.
- ii. **Professional Service (professional affiliation):** Service on national commissions, governmental agencies and boards, granting agency peer-group review panels on visiting committees or advisory groups to other universities and on analogous bodies are not considered consulting.

The distinction between these activities and consulting is that they are public or University service. Although an honorarium or equivalent sometimes is made to the faculty member, service activities are not undertaken for personal financial gain and do not fall within the consulting category.

F.5 Faculty Compensation through External Research Contracts and Grants

Faculty can supplement their income through external research contracts and grants according to the following policy:

F.5.a Summer Supplemental Income from AUS-Administered Research Contracts and Grants

During the summer session, the maximum salaries that faculty may be paid from research contract(s) or grant(s) administered by the University are:

- i. the lesser of 1/9th of the annual base salary per month of full-time commitment to the research contracts or grants for a maximum of three months.
- ii. compensation equivalent to 1/18th of the annual base salary per month if the faculty member is teaching one course during the six-week summer session.
- iii. no compensation during the six-week summer term if the faculty member is teaching two courses.
- iv. no compensation during the three-week summer term if the faculty member is teaching one course.

F.5.b Regular Semester (Fall and Spring) Supplemental Income from AUS-Administered Research Contracts and Grants

- i. Faculty members may not receive supplements to their academic year salaries from research contracts or grants administered by the University.
- ii. With the approval of the Department Head, Dean, and Vice Chancellor for Academic Affairs and Provost, and if allowed by the granting or contracting agency, a faculty member may buy out one or more courses through a grant or contract. In such cases, the University will receive reimbursement of salary and benefits equal to the faculty replacement cost to cover the course, up to a maximum of 1/6 of the faculty member's annual salary and benefits per course, assuming a full-time teaching load of six courses.

Responsibilities:

The Department Head, Dean, and Vice Chancellor for Academic Affairs and Provost are responsible for approving salary budgets from research contracts and grants. The Office of the Vice Chancellor for Academic Affairs and Provost, in collaboration with the Finance Department, is responsible for monitoring compliance with approved budgets and this policy.

The determination as to whether an external source of funding administered by the University is a research or a consulting contract is made by the Vice Chancellor for Academic Affairs and Provost.

F.6 Intellectual Property

AUS Intellectual Property (IP) policy (see link) is intended to:

- promote collaborations with the private sector for the benefit of society
- further promote discovery and innovation
- encourage the participation of faculty, staff and students in research
- foster transformative sustainable development in the United Arab Emirates and beyond.

The Board of Trustees recognizes the importance of commercialization as being part of the mission of AUS, and acknowledges that collaborative research supported by industry requires timely and efficient processes to manage IP created at AUS. The AUS IP policy applies to all IP generated at AUS, and is binding on all AUS employees, students and visitors as described in the scope of the IP policy. Any amendments to the IP policy should be in consultation with the Faculty Senate.

Chapter F: Intellectual Property Procedures

F.1 Purpose

This chapter describes the procedures that govern Intellectual Property (IP) work of Faculty.

F.2 Management of Intellectual Property and Commercialization Processes

a. Discovery and Disclosure

- i. An AUS creator conceives an invention, copyrightable work or other item of IP.
- ii. The invention or copyright disclosure is filed with the Office of Research at AUS.
- iii. Discussions are held with the creator(s).
- iv. The Office of Research evaluates the disclosure and any pertinent history, if any, regarding the sponsored research funding for the creation of the IP.
- v. IP protection is initiated, if appropriate.

b. Licensing

- i. A marketing plan is conceived by the licensing associate in consultation with the creator.
- ii. The Office of Research and the creator collaborate to execute the marketing plan.
- iii. Prospective licensees are identified.
- iv. Licensing negotiations occur in consultation with the creator.
- v. A license agreement is executed.

c. Royalty Distribution

- i. When licensing income is derived, it is distributed in accordance with university policy.

F.2.a Discovery, Disclosure and the Evaluation Process

Discovery

AUS researchers continually create materials, technologies or processes with significant commercial potential. Protecting the IP behind these innovations and introducing them to the marketplace requires a significant investment of time and resources by all parties. The Office of Research coordinates the efforts of the creator, patent attorneys and commercial partners throughout the protection and commercialization process.

AUS should consider the commercialization potential of their IP early in the discovery process. It is often useful for the researcher to engage in informal discussions about the innovation with a licensing associate prior to disclosure. This communication keeps abreast of research developments and may provide the researcher with information about commercial opportunities and potential collaborations with other researchers on campus. Most licensing contacts come directly from the professional network cultivated by the creator. The Office of Research can also provide the researcher with advice on the licensing process along with the details on the various steps involved in the process of commercialization.

During the discovery period, the researcher should keep detailed records of the development of the invention. In many patent laws, only the inventor(s) who can prove they are the first to invent are granted a patent; therefore, it is important that bound laboratory notebooks be carefully maintained with dated, signed, and witnessed entries.

Disclosure

To disclose IP to the Office of Research, a creator should complete and submit an invention or copyright disclosure form to the Office of Research. This should be done as soon as the concept of the invention has been practically or theoretically reduced to practice; and in the case of a copyrightable work, when that work has been fixed in a tangible medium of expression. Forms for an invention or copyright disclosure are available on the Office of Research iLearn page.

Once the invention or copyright disclosure has been filed with the Office of Research, it is the Office of Research's responsibility to comply with applicable requirements to disclose to a sponsor under the terms of a sponsored research agreement. The creator needs to provide the Office of Research with identifying information regarding the sponsored research project at the time the invention or copyright disclosure is initially filed with the Office of Research, including the sponsored research agreement, so as to enable the Office of Research to comply with these requirements. Creators affiliated with other institutions or employers may also need to consider other disclosure requirements that may be applicable to them under the terms of an agreement with, or policies of, these organizations.

Upon receipt of the disclosure by the Office of Research, it is assigned a case number, is delegated to the appropriate licensing associate, and the creator is notified of the case number and the responsible licensing associate.

AUS creator(s) are obligated to disclose new IP to the Office of Research prior to publishing any information related to their IP, or offering it for sale, or otherwise publicly disclosing it. Should any of these events occur without such protection, almost all IP rights in most countries are lost. Nonetheless, it may still be possible that protection is obtained in certain countries (e.g. US) if the Office of Research completes a patent application or a provisional patent application within a certain time from the date of any of these events.

Evaluation Process

Working closely with the creator, the Office of Research performs a technical and commercial evaluation of the IP. Such evaluations generally include patent and literature searches and may also include confidential discussions with internal and external experts. The decision to pursue a full patent filing is based upon the following three factors:

- i. Scientific and technical merit of the IP
- ii. Patentability and ability to enforce the patent
- iii. Marketability and commercial potential of the IP

The evaluation begins with a meeting between the creator and the Office of Research licensing associate. Through the meeting the associate gains a greater understanding of the technical merits of the IP. Initial market research begins during this period as well as discussion about the potential for commercial application. The full evaluation and decision to pursue a full patent filing takes no longer than four months to complete.

After completing its evaluation, the Office of Research informs the creator that it has reached one of the following decisions. AUS will either:

- i. Protect the technology in an appropriate form of IP and pursue efforts to distribute, to license, or otherwise commercialize it; or
- ii. Notify the creator(s) that it will not pursue patent filing and may, under certain circumstances, consider a transfer of the IP to the creator(s), if AUS is able to do so.

F.2.b Licensing Steps

- i. An interested party may search AUS's portfolio of available technologies or contact the Office of Research licensing associate.
- ii. The licensing associate provides non-confidential information about the IP. Confidential information can be provided to the interested party under a non-disclosure agreement.
- iii. The creator provides further details and explanations of the technology and presents further information he or she has available that demonstrates the performance or usefulness of the technology.
- iv. If the parties decide to proceed, the licensing associate negotiates an agreement that fits the needs of the licensee and those of AUS and the creator.

F.2.c Revenue Distribution

Distribution of Net Adjusted Revenue Income occurs on a semi-annual basis.

F.3 Appeal Process

Any disagreement arising from the outcome of these Procedures that is not resolved after an attempt at resolution through the Office of Research will be referred to the Appeal Process. The Office of Research will solicit the opinions of all stakeholders and refer these positions to appeal with the pertinent supporting documentation. The appeal will then promptly be heard and determined by an Appeals Committee comprised of the Vice Chancellor for Research and the Faculty Senate President. In case of no consent reached, the appeal will be raised to the Chancellor for the final decision.

Chapter G: Leaves Policy

G.1 Purpose

This chapter describes the policy applicable to all faculty who would like to apply for Leave.

G.2 Definitions

For the purposes of this chapter, the term “leave” is used to denote a period of time during which the faculty member does not have obligations to the university in terms of teaching or service; an expectation of scholarly activity may continue, depending upon the type of leave. For some leaves, the University continues to provide salary and benefits. For other leaves, the University does not provide salary continuation or benefits; the latter are referred to as Leaves without Pay (LWOP). If a faculty member has external insurance of any kind, he/she should consult his/her medical insurance contract to determine coverage during a leave without pay.

There are three named leaves that **provide some level of continuation of salary and benefits**:

- i. Sabbatical Leave
- ii. Parental Leave
- iii. Extended Medical Leave

An additional leave program, Leave without Pay, **does not provide continuation of salary and benefits**, but does provide for return to the position held by the faculty member upon completion of the approved leave.

G.3 Sabbatical Leave

Through sabbatical leaves, the University provides faculty members with opportunities to enhance their teaching, scholarly activity, and service. The release from normally assigned duties is granted with the expectation that faculty members will utilize their leave for scholarly endeavors of an academic, artistic, or professional nature. These activities should enhance their careers and their ability to contribute to the work of the University. The expectation is that the sabbatical leave must be fully spent at an external institution. Performance evaluations of faculty on sabbatical leave will solely be based on scholarly outcomes.

G.3.a Eligibility and Duration

Sabbatical leave should be regarded not as a right, but as a privilege competitively awarded on the basis of the merit of proposals. Only faculty members on rolling contracts are eligible to apply for sabbatical leave.

Sabbatical leave may be granted as follows:

- i. one semester at full pay;
- or
- ii. two semesters at 50% of the annual pay

Applications for sabbatical leave may be made only for the academic year subsequent to the academic year in which the application is submitted.

Faculty members may submit applications either:

- i. during or after the sixth year of credited service from the date of appointment;
or
- ii. during or after the sixth year of credited service following a previous sabbatical leave

G.3.b Budget and Number of Sabbatical Leaves

To the extent possible, the University shall announce early in each academic year the allocated sabbatical leave budget for the subsequent academic year.

G.3.c The University Sabbatical Leave Committee

The Chancellor shall, in consultation with the President of the Faculty Senate, designate a University Sabbatical Leave Committee to review the applications for sabbatical leave and submit recommendations for awards.

G.3.d Remuneration and Benefits

Faculty members granted sabbatical leave remain eligible for benefits to which they are entitled when in regular employment status. However, faculty members approved for sabbatical leave must, as a condition of the leave, inform the University of any remuneration and other payments to be received during the sabbatical leave period. The University reserves the right to offset remuneration and other payments received from non-University sources against corresponding payments from the University to the extent that the corresponding non-University and University payments would otherwise exceed the normal remuneration and other payments the faculty member would have received from the University.

The period of any leave without pay shall not be counted as years of credited services for purposes of sabbatical leave applications.

G.3.e Return from Sabbatical Leave

Faculty members, upon applying for sabbatical leave, must acknowledge in writing their obligation to return to the University following the leave period and to serve the University for a period not less than one academic year. The University reserves the right to withhold any payments or benefits to which a faculty member would otherwise be entitled should he or she leave the University within one year of return from sabbatical leave.

G.4 Leave without Pay

Leave without pay may be granted to rolling-track faculty members for a maximum of one academic year. A leave request must include details for the reasons for requesting a leave and assurances that the faculty member intends to return to the University following the leave. The policy is expressly intended to provide faculty members an opportunity to take care of personal and family circumstances or to take advantage of professional opportunities for development away from the University. Under extraordinary circumstances, a leave without pay may be extended when there is a clear and compelling reason to do so.

Applications for leave without pay must be submitted in writing to the Dean through the Department Head. If the Department Head and Dean approve the request, it is submitted to the Vice Chancellor for Academic Affairs and Provost for final action.

The faculty member is withdrawn from the benefits plan offered by the University while on leave without pay. If a faculty member has external insurance of any kind, he/she should consult his/her medical insurance contract to determine coverage during a leave without pay.

The University's contractual terms of employment with a faculty with regard to a rolling contract or promotion may be placed in abeyance for the period of the leave without pay. A request to the University to "stop the clock" should be filed in writing at the time when the leave without pay is requested and needs to be confirmed upon approval. Years on leave without pay do not count towards eligibility for sabbatical.

Faculty members on leave without pay will retain their housing unit subject to availability as determined by the Director of the Operations Department in consultation with the Vice Chancellor for Academic Affairs and Provost. Faculty who wish to retain their housing unit while on leave must indicate this request in writing when applying for leave.

G.5 Parental Leave

The University recognizes the importance of supporting faculty as they balance career and family life, and acknowledges the benefits that accrue to the University in recognition of this support. This policy provides income continuation for faculty members during time off to care for a newborn child. There is a maximum of one parental leave, per faculty, per year. Retention of position, salary, and benefits for faculty will continue during the maternity/paternity leave period. Health insurance premiums must continue to be paid by the faculty member to avoid lapse of coverage. In some circumstances, and if feasible, a part-time workload may be arranged.

Faculty members must use (in order): parental leave, then vacation (for those who accrue vacation days). Additional leave will be leave without pay.

To be eligible for full parental leave an individual must have completed at least one year as a full-time faculty member prior to beginning parental leave. Paid leave is applicable only to the parent(s) of a newborn child. The maternity/paternity leave policy for faculty provides for one semester leave with pay for the birth mother, and a total of two calendar weeks paid leave for the father. A female faculty member hired under a contract of three or more years' duration with AUS who has been employed for less than one year is paid at half pay. The leave period for the mother is to be taken during the semester in which delivery is expected to take place. If that time is between Fall and Spring semesters, the faculty member has the choice of which semester she will be on leave.

The faculty member should notify his/her Departmental Head as far in advance as possible of any paternity or maternity leave. The faculty member should request the parental leave in writing, specifying the semester of leave. There will be no teaching expectations of the birth mother during maternity leave. The birth mother may participate in department, college/school, and University governance during maternity leave, but such participation is not required. Expectations for scholarly activity during maternity leave are suspended.

The University will bear the cost of providing replacement faculty for the semester that the faculty member is on maternity leave.

Extensions of further unpaid leave under this policy must be granted by the Vice Chancellor for Academic Affairs and Provost. If a faculty member has external insurance of any kind, he/she should consult his/her medical insurance contract to determine coverage during a leave without pay.

The University's contractual terms of employment with a faculty member with regard to a rolling contract or promotion may be placed in abeyance for the period of maternity leave and/or subsequent leave without pay. A request to the University to "stop the clock" should be filed in writing at the time when the parental leave is requested and needs to be confirmed on the approval. A decision to stop the clock will not otherwise affect the evaluation standards of contract or promotion determinations by the evaluating parties.

Final decisions regarding eligibility, administration and any questions regarding the policy rest with the Vice Chancellor for Academic Affairs and Provost.

G.6 Extended Medical Leave (EML)

The University recognizes that medical leave beyond the University's regular sick leave (for those who accrue sick leave) may be necessary in extenuating circumstances. This policy provides benefits while the faculty member is recovering from illness or injury. The University recognizes that retention of faculty is mutually beneficial and that implementation of this policy serves both parties.

EML provides income continuation due to non-work-related illness or injury of the faculty. It is in addition to any sabbatical leave to which a faculty member may be entitled. Occupational-related illness or injury is covered by the University Occupational Illness/Injury Leave Policy¹

A faculty member's position, pay, and benefits will continue during the EML benefit period. Pay under the policy is at full pay for a maximum of six months. Applicable health insurance premiums must continue to be paid by the faculty member to avoid lapse of insurance coverage.

The Dean and the Department Head will work with faculty to determine how best to cover the responsibilities of a faculty member on EML.

To be eligible for EML, the faculty member must have been a full-time faculty member at AUS for one year or more. A physician's certificate is required supporting the faculty member's inability to perform job duties. In all cases, the AUS Health Center must review and endorse the application.

Maximum leave under the EML policy is six months per occurrence. EML leave may be combined with other leave, e.g., annual leave (for those who accrue annual leave) to extend beyond six months. In the event EML leave extends beyond six months, the faculty member may apply to take LWOP. LWOP may be granted only on the approval of the Vice Chancellor for Academic Affairs and Provost. If a faculty member has external insurance of any kind, he/she should consult his/her medical insurance contract to determine coverage during LWOP.

The University's contractual terms of employment with a faculty member with regard to a rolling contract or promotion may be placed in abeyance for a period of one year for a faculty member on EML. A request to the University to "stop the clock" should be filed with the Department Head as soon as possible after the faculty member determines to take a EML, but under no circumstances later than the end of semester during which extended medical leave is to be taken.

A decision to defer will not otherwise affect the evaluation standards of contract or promotion determinations by the evaluating parties.

The faculty member must submit the proper application requesting EML, if physically possible. The faculty member may apply to take LWOP if he/she is unable to return to work at end of the EML period. Otherwise, the faculty member may request long-term disability benefits if he/she is unable to return to work at end of the EML period.

Final decisions regarding eligibility, administration and any questions regarding the policy rest with the Vice Chancellor for Academic Affairs and Provost.

¹ This policy states that a faculty member who has a work-related illness or injury is entitled to full pay for up to six months and half pay for the next six months. Benefits beyond one year are handled by the university's Personal Accident/Sickness Insurance Policy.

Chapter G: Leaves Procedure

G.1 Purpose

Faculty members are allowed to apply for Sabbatical leave, among other types of leave. This document describes the procedure that must be followed to apply for leave.

G.2 Sabbatical Leave

Applicants for sabbatical leave must submit a Sabbatical Leave Application Form (SLAF) obtainable from the Deans and Department Heads. The completed form should be accompanied by:

- i. an outline of the proposed program of work
- ii. an explanation of how the leave would contribute to the individual's professional growth and development
- iii. an explanation of how the grant of the sabbatical leave will benefit the University
- iv. a work plan including dates of major activities
- v. a summary of expected outcomes of the sabbatical activities
- vi. a current curriculum vitae for the applicant
- vii. other materials which the applicant deems to be of assistance in judging the merits of the application

G.2.a Sabbatical Leave Timeline

- i. Faculty members must submit applications to the Department Head **by the end of week 4 of the Fall semester** for leaves during the subsequent academic year.
- ii. Department Heads shall forward applications, along with their recommendations and comments, to the Deans of the respective units **by the end of week 6 of the Fall semester**, indicating how the leave might affect the functions of the department. In cases where there is more than one applicant from an academic unit, Department Heads should rank the applications and provide appropriate rationale.
- iii. Deans shall forward applications from their unit, along with their recommendations and comments, to the Office of the Vice Chancellor for Academic Affairs and Provost **by end of week 8 of the Fall semester**. In any instance in which the Dean's recommendations do not follow rankings assigned to the applications from a unit by the Department Head, the Dean shall include an explanation in his/her recommendation. The Office of the Vice Chancellor for Academic Affairs and Provost shall immediately inform the University Sabbatical Leave Committee (USLC) of the availability of the proposals for its review and evaluation.
- iv. The USLC shall give careful consideration to the proposals, rank them according to their respective merits, and forward them to the Vice Chancellor for Academic Affairs and Provost **by end of week 13 of the Fall semester**. In any instance in which the USLC recommendations do not follow the rankings assigned to the applications from a college/school by the Dean of the college/school, the USLC shall include an explanation in its recommendations.
- v. The Vice Chancellor for Academic Affairs and Provost shall review the applications, recommendations, comments and the ranking assigned to the applications by the USLC. The Vice Chancellor for Academic Affairs and Provost shall forward recommendations to the Chancellor **by the end of the final exam period of the Fall semester**, taking into account the availability of funds to support the sabbatical leaves and any special difficulties for academic units and units which might be created by the award of recommended applications. In any instance in which the Vice Chancellor for Academic Affairs and Provost's recommendations do not follow the rankings assigned to the applications by the USLC, the Vice Chancellor for Academic Affairs and Provost shall include an explanation in his/her recommendations.

- vi. The Chancellor shall inform the applicants of the disposition of the application as soon as possible after receipt of the recommendation but no later than **the end of week 2 of the Spring Semester**.

G.2.b Return from Sabbatical Leave

Within four weeks of the end of the sabbatical leave, the faculty member will submit a report to the Dean of the unit evaluating the sabbatical experience in terms of its fulfillment of the sabbatical leave plan. The report should be supported with relevant documentation.

Chapter H: Separation Policy

H.1 Purpose

These policies apply to any condition whereby a faculty member, whether on initial, term or rolling contract appointments, may be separated from employment with the University prior to the expiration of the faculty member's contract. These conditions include resignation and dismissal.

Nothing in this chapter nullifies conditions of employment contained in the letter of appointment.

H.2 Resignation

If for any reason a member of the full-time faculty intends to terminate their relationship with the university, written notice specifying the effective date of resignation should be sent to the dean of their college/school at the earliest possible opportunity and at least four months or by week ten of the semester, whichever is earlier. The Dean will forward copies of the resignation letter to the Vice Chancellor for Academic Affairs and Provost and the Chancellor.

If a resigning faculty member holds research grants or contracts from outside agencies, the administration should be consulted for proper arrangements of the liquidation or transfer of the grant.

Faculty who resign from their positions at AUS must fulfill all obligations to their college/school prior to final departure, and the Dean of the respective college/school must confirm in writing that they have fulfilled their obligations prior to the delivery of final payment. Such obligations include turning in all papers, exams, grades, etc. related to their last semester of teaching at AUS.

H.3 Dismissal

Dismissal is the termination of employment of a faculty member of the American University of Sharjah before the term of appointment has expired. Dismissal recommendations for reasons of academic performance or programmatic considerations initiated by the Vice Chancellor for Academic Affairs and Provost must be approved by the Chancellor.

H.3.a Assurances

University policies and procedures for faculty dismissals must ensure the following:

- i. The rights of the individual are protected under these policies and procedures.
- ii. Dismissal shall not violate the rights of an individual under applicable law.
- iii. The threat of dismissal shall not be used to restrain faculty members in their exercise of academic freedom.
- iv. Dismissal procedures provide for timely written notice of impending dismissal, which specifies the grounds on which dismissal is sought.
- v. A faculty member notified of impending dismissal may avail him/herself of the right of grievance, provided the necessary conditions are met as specified in Chapter I.

H.3.b Justifications

Dismissal may be justified by one or more of the following:

Adequate Cause

Dismissal for adequate cause may include grounds related to dishonesty, proven incompetence in teaching or scholarly activities, serious neglect of professional or academic responsibilities, and/or personal misconduct affecting the community or the institution.

Discontinuance of Academic Programs

Termination of employment may be based on the discontinuance of an academic program reflecting judgments concerning the educational mission of the University.

Financial Exigency

Termination of employment is justified by a demonstrated and bona fide financial crisis that threatens the continuation of one or more academic programs or units in their present form, and that cannot, in the judgment of the Board of Trustees, be appropriately addressed by less drastic means.

H.3.c Payment of Salaries in Cases of Separation from Employment

If a faculty member is separated from employment for adequate cause (Section H.3.b), the faculty member's salary shall be terminated effective upon the date of dismissal.

If a faculty member is separated from service because of discontinuation of an academic unit or a unit (Section H.3.b) or declaration of financial exigency (Section H.3.b), the faculty member's salary shall be terminated according to the provisions specified in accordance with the plans developed under the procedures found in Chapter H, Section H.2.

Chapter H: Separation Procedures

H.1 Purpose

These guidelines apply to any condition whereby a faculty member, whether on initial, term or rolling contract appointments, may be separated from employment with the University prior to the expiration of the faculty member's contract. The following procedure is followed in cases of dismissal.

H.2 Dismissal

Dismissal is the termination of employment of a faculty member of the American University of Sharjah before the term of appointment has expired.

H.2.a Dismissal for Adequate Cause

Allegations of faculty misconduct leading to potential dismissal for adequate cause shall be dealt with under the procedure outlined in Chapter B, Section B.3.d (see "Violations of Rules Pertaining to Professional Conduct, Ethics, and Conflicts of Interest"). In exceptional cases, where the Vice Chancellor for Academic Affairs and Provost must dismiss a faculty member, whether on initial, term or rolling contract appointment, for serious violations of the laws of Sharjah and the UAE, under this subsection, the Vice Chancellor for Academic Affairs and Provost shall provide formal notification in writing to the affected faculty member, informing the faculty member of the decision to dismiss and the specific grounds for dismissal.

If the affected faculty member wishes to challenge the dismissal, he/she must notify the Chancellor in writing of his/her intention to appeal the decision. Such notification must be received by the Chancellor's office within 10 working days of receiving notification from the Vice Chancellor for Academic Affairs and Provost.

The Vice Chancellor for Academic Affairs and Provost may recommend to the Chancellor immediate suspension of the faculty member, if the Vice Chancellor for Academic Affairs and Provost believes such action is warranted based on the grounds for dismissal (see "Adequate Cause" Chapter H, Policy). The Chancellor makes the suspension determination.

If the faculty member notifies the Chancellor of his/her intent to appeal the Vice Chancellor for Academic Affairs and Provost's decision, the Chancellor, in consultation with the President of the Faculty Senate, will constitute an evidence committee to establish the facts in the case. The evidence committee shall offer the faculty member the opportunity to respond to the charges. This committee will file a report within fifteen working days unless the Chancellor provides an extension for good reason.

If the facts support the original charge, the faculty member will be dismissed. A dismissed faculty member shall normally receive salary and benefits until the effective date of dismissal unless otherwise determined by the Chancellor. The decision to dismiss is non-grievable.

H.2.b Discontinuance of an Academic Unit or a Unit

The recommendation to discontinue a department/program (academic unit) or a college/school (unit) shall be made by the Vice Chancellor for Academic Affairs and Provost on the basis of educational considerations and only after consultation and review as set forth herein. When the Vice Chancellor for Academic Affairs and Provost believes that a discontinuance is necessary, he or she shall inform and seek the advice of the Council of Deans and the Faculty Senate. The request for advice shall be accompanied by written supporting documentation. The Faculty Senate shall promptly inform and seek

the advice of the affected groups. The Faculty Senate will, in turn, provide advice and consultation to the Vice Chancellor for Academic Affairs and Provost.

The final decision to discontinue a department or a college/school may be made only by the Board of Trustees. A plan for the discontinuance of a department or a college/school, approved through appropriate channels of consultation, will be presented by the Chancellor to the Board of Trustees before action is taken to discontinue. Termination of faculty appointments or major changes in academic programs must conform with principles established in the approved plan, as well as the provisions of this document. The plan may provide for the termination of continuing-contract faculty members in the discontinued program while probationary-contract faculty members are retained in another program. Academic considerations will be primary in making program and personnel decisions. The discontinuance requires the affirmative vote of the Board of Trustees.

After the decision to discontinue, major steps for dealing with the affected parties will be reviewed jointly by the Chancellor (or Vice Chancellor for Academic Affairs and Provost) and the Faculty Senate. Prior to issuing notices of dismissal to faculty in cancelled academic programs, the Chancellor, based on the recommendation of the Vice Chancellor for Academic Affairs and Provost, shall give careful consideration to all reasonable alternatives and ensure that decisions to terminate faculty under the plan conform to all applicable laws.

H.2.c Financial Exigency

Declaration

The declaration of an exigency requires that the dismissal of faculty is likely, even if such dismissals are not imminent. When the Chancellor of the University believes a bona fide financial exigency exists, he/she shall promptly inform the Board of Trustees and seek the advice of the Vice Chancellor for Academic Affairs and Provost, the Council of Deans and the Faculty Senate. The Chancellor will provide advice and consultation to the Board of Trustees. The decision to declare a financial exigency may be made only by the Board of Trustees.

Retrenchment

After the declaration of an exigency, major steps for dealing with the financial crisis will proceed along the lines as described in the case of discontinuance of academic units, or units. Consultation between the Chancellor and the Faculty Senate is central to this process.

A retrenchment plan must be developed by the Chancellor and approved by the Board of Trustees before actions are taken pursuant to a declaration of financial exigency. Termination of faculty appointments or major changes in academic programs must conform with the principles established in the retrenchment plan, as well as the provisions of this document. Academic considerations will be primary in making program and personnel decisions.

The Board of Trustees may declare that a financial exigency no longer exists. However, nothing in this section shall imply that notice of dismissal issued to any individual during a period of declared exigency is automatically withdrawn or otherwise invalid.

Chapter I: Grievance Policy

I.1 Purpose

This chapter provides the policy of the Grievance Code, under which a faculty member who has a complaint against an administrative action or individual(s) at the level of the academic unit, the unit or the central administration is able to seek a remedy within the University.

I.2 Applicability

Individuals in the following positions may not grieve under this code: all administrators, including the Chancellor, Vice Chancellor for Research, Vice Provosts, Deans, Associate Deans, Directors and Department Heads. A faculty member serving as Associate Dean, Department Head or Director may invoke the code if, in his/her capacity as an individual faculty member (and not because of any action or omission in his/her capacity as Head of an academic unit), he or she is subjected to any of the actions listed in I.3 of this chapter. The Senate Executive Subcommittee, (hereinafter SES) will resolve questions concerning which capacity, as faculty member or administrator, gave rise to the complaint. (Procedures for grievances by administrators or faculty in administrative capacities may be found in the *HR Policy Manual*).

I.3 Definition of a Grievance

A grievance is a formal complaint by a member of the faculty that his/her terms or conditions of employment at the American University of Sharjah (hereinafter "the University"), or ability to act in his/her professional or academic capacity at the University has been significantly impaired due to serious violations as a result of one or more of the four items listed below. A grievance is not an opportunity for a faculty member to express disagreement over the judgment rendered by an administrator or committee; rather, it provides the opportunity to redress one of the following:

- i. violation of academic freedom as defined in Chapter B (Policy) - Section B.2.b
- ii. discrimination on the basis of age, disability, ethnic or national origin, gender, race or religion
 - o Note that University policy does not allow extension of contracts after an individual has reached age 70
- iii. violation or misapplication of an applicable University contractual provision, procedure, regulation or rule
- iv. violation of accepted standards of behavior in the workplace of the University as stated in the *Faculty Handbook*

The grieving faculty member must demonstrate the occurrence of procedural or factual errors in the case.

I.4 Notice and Suspension of Proposed Administrative Actions

The following actions – dismissal, suspension without pay, reduction in academic rank, reduction in salary, denial of promotion or reappointment – shall take effect only if the administrative officer of the University who intends to take action gives to the faculty member affected by the proposed action written notice of at least thirty (30) days in advance of its effective date, unless provisions to the contrary are explicitly stated in the *AUS Faculty Handbook*. Such notice shall be confidential, unless the faculty member affected by the proposed action waives confidentiality in writing.

However, the above-mentioned actions shall not take effect if the faculty member affected by the proposed action invokes the procedures of this code. In all cases of dismissal or non-renewal, efforts shall be made to bring the grievance procedure to conclusion by the end of Spring semester classes.

Nothing in this section nullifies the conditions of employment contained in the letter of appointment.

I.5 Mandate of the Grievance Committee

The responsibility of the Grievance Committee is two-fold:

- i. to reach a decision regarding the validity of the grievance, and, if the grievance is upheld,
- ii. to recommend an action to provide relief to the grievant.

In reaching its recommendation for relief, the committee should consider the relief requested by the grievant(s), but the committee has wide discretion and may recommend appropriate relief within University guidelines and regulations.

The type and extent of relief may, at the committee's discretion, be influenced by the committee's views about factors such as:

- i. whether a violation was intentional or unintentional
- ii. whether a violation involved negligence or was a reasonable misinterpretation of responsibilities
- iii. the likelihood of the harm and its possible magnitude for situations in which possible future harm is involved

1.6 Confidentiality Requirement

Unless confidentiality is waived in writing by all parties, participants are required to maintain the confidentiality of the proceedings. Documented failure to comply that has been presented in writing to the Chair of the SES and confirmed as such by the SES will be added to the grievance file.

Once concluded, none of the involved parties to the grievance is to discuss any aspect of a case. The final documentation will be filed in the Chancellor's office. To the extent allowed by law, notices are privileged and cannot be compelled in any other proceeding.

Information concerning a grievance may be provided to appropriate officials of the University on a need-to-know basis. Any person so informed shall be bound by confidentiality requirements.

1.7 Role of the Chancellor

The Chancellor of the University is the final decision maker under the terms of this code and is responsible to the Board of Trustees for actions as the chief executive officer of the University. The Chancellor is not subject to the grievance provisions of this code for decisions made or actions taken as Chancellor, whether based upon the advice of others or upon independent judgment of the needs and interests of the University.

In all matters, the Board of Trustees expects the Chancellor to adhere to the rules and regulations of the University and personally to maintain high professional and ethical standards. Any faculty member having complained that the Chancellor has violated the rules and regulations of the University or has failed to abide by appropriate professional and ethical standards may address his/her concerns in writing to the Chair of the Academic Affairs Committee of the Board of Trustees. Correspondence should be addressed to: "Chair, Academic Affairs and Research Committee, AUS Board of Trustees, c/o Office of the Chancellor," with a copy of the complaint and any supporting documentation sent to the Chancellor. The Chair will inform the complainant and the Chancellor of the process to be followed and, when completed, the result of the review.

Chapter I: Grievance Procedure

1.1 Purpose

This chapter provides the procedure of the Grievance Code, under which a faculty member who has a complaint against an administrative action or individual(s) at the level of the academic unit, the unit or the central administration is able to seek a remedy within the University. A grievance procedure is a very serious matter and should not be entered into lightly. As responsible citizens of the University community, faculty members should proceed with good faith and should make a sincere effort to resolve conflicts before resorting to the grievance process. Furthermore, resort to the grievance process should occur only for those cases stated within Chapter I (Policy)-Section I.3.

A grievance procedure is not a formal judicial proceeding and therefore is not required to comply with rules of evidence that are applicable in a court of law. To the extent that any provision of this code conflicts with any applicable law, the applicable law prevails.

Before pursuing remedies outside the University, a faculty member is obligated to exhaust the procedures outlined in this code.

1.2 Outline of Grievance Process

For the purpose this code, the word “day” refers to working days during Fall and Spring semesters.

The order in which adversarial parties should attempt to solve their disputes is outlined as follows:

- i. informal attempts at Conflict Resolution
- ii. the Notice of Grievance
- iii. the grievance hearing
- iv. the report of the Grievance Committee
- v. the final decision of the Chancellor

1.2.a Informal Attempts at Conflict Resolution

Before a formal grievance is filed, a potential grievant should attempt to resolve the grievance informally.

1.2.b Notice of Grievance

If informal resolution fails, a faculty member who believes that he or she has a grievance must file a Notice of Grievance with the highest-ranking member of the Senate Executive Committee who is not a party to the complaint or from the same unit as parties to the grievance.

The Notice of Grievance shall contain a concise statement of the reasons that led the faculty member to feel aggrieved and shall specify the remedy requested. The grievant must file the notice within thirty (30) days of an officially documented action.

The Notice of Grievance includes basic information regarding the person submitting it, including the name, office addresses and phone number(s), the unit, the individuals against whom the grievance is being filed, the date that the aggrieved action occurred, and the date of submission.

The Notice of Grievance should be thorough, but as clear and concise as possible, and contain the following information:

- i. the (administrative or collegial) acts to be reviewed
- ii. the names and phone numbers of all parties involved, as well as those of any witnesses who may be called to testify, along with a brief summary of their testimony

- iii. how these acts adversely affected the grievant
- iv. the applicable sections or subsections of the grievance code
- v. the section(s) and specific provision(s) of the applicable University rules, regulations or contracts alleged to have been violated, if any, and how these provisions were violated
- vi. the remedy being requested
- vii. proof that the grievant has made all efforts in good faith to resolve the conflict informally.

Appropriate documentation should be included to substantiate any claims.

1.3 Formation of the Senate Executive Subcommittee (SES)

As soon as a Notice of Grievance is filed, the Senate Executive Committee shall form a subcommittee (hereinafter SES) of itself. If the grievance notice is filed after the end of week 10 of the Spring semester, the SES may defer, for practical reasons, some or all of its duties until the first day of the following regular semester. The SES will consist of all members of the Senate Executive Committee who are not from the same unit as parties to the grievance. The Chair of the SES shall be the highest-ranking member of the SES.

The SES fulfills the following duties:

- i. determines within ten (10) days whether or not the complaint is a grievable matter and sends its report in this regard to the Chancellor, to the Vice Chancellor for Academic Affairs and Provost and to the grievant
The chair of the SES may request additional information from the grievant only to assist the SES in determining whether the complaint is grievable.
- ii. if the SES determines that the complaint is a grievable matter, with concurrence of the Chancellor and the Vice Chancellor for Academic Affairs and Provost, informs the person against whom the grievance is filed and includes a copy of the Notice of Grievance. If the Chancellor and Vice Chancellor for Academic Affairs and Provost do not concur that the complaint is grievable, then the matter ends.
- iii. selects the members of the Grievance Committee
- iv. determines what evidence provided by the grievant is admissible
- v. provides guidance and direction for the Grievance Committee
- vi. reviews the findings and recommendations of the Grievance Committee and identifies any flaws in the grievance procedure
- vii. ensures the integrity of the grievance process

1.4 Formation of the Grievance Committee

The SES shall by majority vote select a Grievance Committee of five (5) members from the eligible pool of faculty members. The eligible pool of faculty members shall consist of all faculty members who have at least two years of service at the American University of Sharjah and are neither part of the current Faculty Senate Executive Committee nor are members of any unit that is involved in the grievance.

Individuals in the following positions may not serve on a Grievance Committee under this code: all administrators, including the Chancellor, Vice Chancellor for Academic Affairs and Provost, Vice Chancellor for Research, Vice Provosts, Deans, Associate Deans, Directors and Department Heads. The committee will elect its own chair. The SES must exercise due diligence that appointees are free of reasonable perceived bias, conflict of interest, or such previous association with the issues that are raised by the grievance and/or close association with the parties to the grievance as would recommend that the appointee not serve.

No person must be involved in the pending grievance process who has rendered a previous judgment on any of the parties to the grievance in the case at hand.

The Grievance Committee shall receive a copy of the Notice of Grievance and any supporting documents filed by the parties to the grievance. The Grievance Committee shall also receive the report of the SES stating which matters are grievable. Non-grievable matters as determined by the SES should not be investigated.

1.5 Mandate of the Grievance Committee

The mandate of the Grievance Committee is described in Chapter I (Policy)– Section I.5.

1.6 Procedures for the Grievance Committee

Once a grievance is approved to proceed, and a Notice of Grievance has been appropriately filed and all necessary information has been included, the SES shall convene the organizational meeting of the Grievance Committee within ten (10) days and shall instruct the Grievance Committee to:

- i. elect a Chair
- ii. establish procedures necessary for a fair and orderly hearing
- iii. forward a copy of the Notice of Grievance to all parties against whom the grievance is filed
- iv. solicit documents or other hard copies or electronic evidence from parties to the grievance

The committee may not meet if more than one member is absent. Decisions must be reached by a majority vote of members present, and votes shall be tabulated and recorded without designating how any individual voted.

The Notice of Grievance and the solicitation of documents shall be delivered to the campus office address of the parties to the grievance.

Parties to the grievance must complete their submissions no later than ten (10) days after receiving the solicitation from the Grievance Committee. The first day of the ten is the first day after an adversarial party has received the request from the Grievance Committee.

Not more than five (5) days after the deadline for submissions of documents and evidence from parties to the grievance, the Chair shall convene the first meeting to consider the written documents and evidence submitted by the parties. Beginning with the grievant, all parties will be invited to make oral presentations and to submit supplementary written evidence.

Strict rules of evidence and procedures shall not apply, but parties must be permitted to be present when the committee receives oral statements, and all parties must receive all documents submitted in evidence by any party.

Parties to the grievance may choose to be assisted by an advisor throughout the hearings. The committee may also have an advisor. All advisors must be employees of the University.

At any time before or during its deliberations, the Grievance Committee may, by majority vote, determine that it is necessary to obtain further information and may call witnesses for oral testimony, or seek any additional documents or information from any source, including by way of addressing hard copy or electronic questions to any party. Witnesses are called to give testimony and are not to attend other portions of the proceedings. The same individual cannot serve as both witness and advisor.

The manner in which oral proceedings are conducted shall be determined by the Chair of the Grievance Committee, in consultation with the members of that committee. The Chair shall make all reasonable efforts to give all relevant parties a reasonable amount of advance notice as to the procedures that

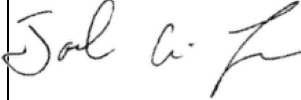

will be followed during the oral proceedings. At the discretion of the committee, parties and their advisors may be allowed to question witnesses.

Records of the committee meetings must be kept. The committee must prepare a report of its deliberations and its recommendations, specifying the rationale(s) for its recommendation, to assist the Chancellor in his/her final decision in the case.

Once the committee has completed its receipt of oral and written evidence, it shall meet in executive sessions to consider its conclusions and recommendations. In executive session, only members of the committee shall be present, provided, however, that, at the committee's discretion, a personnel officer or legal advisor of the University may be present as an advisor to the committee.

Unless the SES, for good cause, extends the deadline for completion of the committee's report, the committee's recommendation must be submitted to the SES within thirty (30) days after the organizational meeting. Copies of the committee's recommendations and report shall also be forwarded to the parties to the grievance. Parties to the grievance may respond to the report by filing in writing to the SES. The SES shall review the report of the committee as well as any comments from any of the parties involved in the grievance process; add its own comments, concerns and suggestions to the file; and forward the file to the Chancellor for final action. Copies of comments from the SES shall be made available to the parties of the grievance. Unless the Chancellor, for good cause, extends the deadline, he/she will inform the parties to the grievance and the SES of his/her decision within twenty (20) days of receiving the file. The Chancellor will notify the parties to the grievance and the SES of any deadline extension.

Approvals:

Title	Name	Signature	Date
Interim Vice Chancellor for Academic Affairs and Provost	Dr. Mohamed El- Tarhuni		July 8, 2024
Chancellor	Dr. Tod Laursen		July 9, 2024
